A GUINEA FOR KARLAC will give a complete repaint to your old car—two coats. If you don't need a marked colour change, Karlac will do it in one coat at half the cost. There is nothing to surpass the Karlac finish, because it is real Coachpainter's material for amateur use, and consequently gives real coachpainter's finish. Don't say you cannot repaint successfully—till you've used Karlac you don't know how easy it is. The Direction Book tells how in the simplest way, and if ordinary care is taken your car will be indistinguishable from a coachpainter job of the highest class. Made in 16 popular car colours and White, Clear and Wing Black. Use also Karlac Hood Paints, Leather Revivers, Radiator, Tyre and Cylinder Blacks, and especially Karlac Wax Polish, for there's no shine like it. Write, giving name and description of car, to Eustace and Co., Ltd., Leitrim street, Cork, and you'll receive a colour folder and an estimate of quantity and cost of Karlac for your specific job.—(P.S.—Introduce Karlac to your wife for household surfaces.) WOMAN AND HER HOME.

TABLE MATS.

Materials—Two dozen metal washers, one ball putty macramé thread, steel crochet hook.

Diameter of washer, 1¼ inches; diameter of hole in centre of washer, ½ inch.

Take crochet hook and macramé thread and set up one chain stitch; take a washer and, holding stitch and thread at outside edge of washer, slip hook through centre hole and make a double crochet, the thread covering back and front of washer. Continue to make double crochet around washer, keeping the stitches tight around edge until washer is completely covered with the thread. (About forty double crochet will be necessary for this size, varying a little according to thickness of thread used and tightness of crochet.) Cut thread and finish off securely, running in end of thread underneath crochet at back. Cover the other twenty-three washers in the same way.

Next, with needle and thread, join the washers together to form a mat. This is best done by inserting needle from wrong side in edge of double crochet of one washer, back through edge of its neighbour washer, repeating, and knotting thread securely on wrong side.

For a mat of this size join six washers in a row; join a further six in another row, and join these two rows together. (This will form the centre of mat.) Miss one washer at each end, and join four washers on to each side of the centre sixes. Again miss a washer at each end, and join two washers on to each side of the fours. The mat is now complete.

Any number of washers may be used to make larger or smaller mats as required—the size given makes a mat nine inches each way across centre—and any shape—round, oval or square—may be made according to taste.

As may be seen, these mats are very simple and inexpensive to make, and are most useful and attractive.

They may be adapted to endless purposes, and may be made in wool or silk if preferred—generally sufficient "left-over" scraps will be available—and attractive designs may be achieved with toning or contrasting colours.

For a polished dinner table—the metal washers giving the table the necessary protection—made in sets with larger mats to match, in either dark mahogany brown to match one's table, or a shade of blue or green, etc., to match one's dinner ware, they are especially suitable and effective. W. M.

LABOUR SAVING.

BOTH for the preparation and the serving of meals, there are many clever devices which add to general efficiency and comfort.

A combined butler and cook-on-wheels, for example, is the electric service wagon, which not only carries the food and accessories from kitchen to diningroom, but also provides electric current for chafing dish or table, stove cookery, toast, hot water, etc. A flex cord—connected with a wall plug or lamp socket—branches into three "tributary" cords, which can be connected to three cooking devices standing on the service wagon. It is thus possible to cook the Sunday night supper or the breakfast just as it is wanted. Another type of up-to-date service wagon spreads out into a level table, and can be obtained in mahogany or oak, for diningroom use, or in wicker for the garden. This is particularly useful in a small house, as it can remain in the two-tier position when a table is not required.

Of smaller accessories, special attention is given to the new type of mustard pot, in which the mustard is pressed out on to the plate through a narrow opening, by means of pressure on a plunger at the base of the pot. By this method there is no waste of mustard, just the amount required being pressed on to the plate, and as the pot is air-tight, the mustard does not become dry. It can be obtained in several artistic shades.

A most sensible idea is the new "inclusive" crockery device—a jar with heat-proof lid and a patent strainer fixed inside the spout. It can be used equally well for tea, coffee, hot milk, soup, or any other hot liquid, and takes the place of the usual separate utensils for these various liquids. This "cosy" pot can be obtained in many shades and patterns, and is very attractive in appearance.

A combined crumb scoop and brush is quick to clear the crumbs from the table, and is better than the usual separate brush and tray.

The very latest electrical device is an electric insect exterminator. It looks like a small lantern with wire bars round the sides. A lump of sugar or some other attraction is placed in the centre, and a flex cord connected with the lighting current. As the flies or wasps are lured by the sugar they touch the bars and are immediately electrocuted! This is much more hygienic than the usual fly papers or traps.

HINTS THAT HELP.

After washing white enamel furniture or woodwork with hot water and Vim, or some like preparation, as soon as the surface is dry, take a soft dry cloth and polish lightly. This will restore the enamel surface, which otherwise remains dull after washing, unless finished off in this way.

Picking fruit for jam or stewing is ruinous to the hands, unless one knows the proper way to remove the stains caused by the fruit juice. Having finished handling the fruit, wash the hands at once in a basin of cold water and no soap, rubbing the hands together until the stains have disappeared. Then wash in the ordinary way with hot water and soap. This is a simple, but most effective treatment.

Shoulder-straps of underclothes have a most irritating habit of slipping off the shoulders on to the arm. This can be prevented by using two large safety pins, bound in ribbon or soft material, as clips. Open the pins, slip in all the straps on either shoulder, close the pins, slide down to where the straps join the garments they support, and you will have no future trouble when playing tennis or otherwise using your arms.

It is best to have a pair of clips for each set of "undies," and these should be covered with the same material as composes the set with which they are to be worn.

There are still a few people left shivering on the threshhold of the great adventure known as "being shingled." Every day the numbers grow smaller, and to those who take the awful plunge there is but one regret—that smart little hat bought only a week or two ago is now too big! It may at first seem inevitably a case for the "Jumble Sale," but do not give up hope until you have tried a roll of tissue paper tacked inside the hat lining at the edge of the crown. The actual size of the roll must be determined by the space "to let" in the hat.

THE CHEAPEST STOVE.

POSSIBLY the most economical and least dangerous of all stoves is that of which most folk have never heard. The sawdust "stove" is the simplest arrangement.

If you have a large biscuit tin it will do nicely. Make a hole in the bottom of the tin about the size of a broom handle. Stand the tin on two or more bricks in the open air, an outhouse, or on top of the cold kitchen range. If on the range the chimney slide must be left open to allow the smoke away. Leave a space underneath the centre of tin for air. Now place a stick the size of hole (the broom handle will do), standing up in the tin. Pack dry sawdust tightly in till it almost reaches the top. Work the stick well round so that the filling will not fall out when the stick is removed. When firm enough, draw out the stick, leaving the centre hole clear.

The sawdust will ignite quickly if a lighted paper is held underneath the hole. A tiny drop of parrafin poured down the centre previously will help.

For the top, any fairly heavy grating will do—an old gridiron, or range rest. Several pots or kettles may be placed on at one time. A kettle holding five pints will boil in less than half an hour once the stove is properly lighted — which takes about ten minutes. One packing will last from four to five hours, so that, if the stove is lighting from 8 o'clock a.m. till 8 o'clock p.m., a bag of sawdust should last about six days. This can be bought for about one shilling per bag.

Be careful not to touch the outside of tin when lighted with bare hands, and keep it out of children's reach.

GOSSIP FROM THE COURSE.

LORD WEMBLEY WINS.

PROMISING FORM OF DELIUS.

TWO FAVOURITES IN THREE DAYS.

From Our Travelling Correspondent.
AYR, Friday Night.

If a Western Meeting at Ayr passed without an Irish success, things would not seem quite right, and the three-year-old Lord Wembley duly obliged this afternoon by taking the Ayr Gold Cup. It was a very stylishly-gained victory, even though Nothing Venture was catching him at the finish and was only beaten a neck, with Compiler, a length and a half away, third, and another Irish filly in Allets, very close up, fourth.

Lord Wembley took the eye in the paddock as an attractive colt, and in spite of his travels of the last month throughout England—after he ran at Wolverhampton he went to Haydock and looked on, then travelled to Doncaster to run, and finally landed up here—Staunton had him wonderfully well, and there was a great deal of confidence behind him. Allets, too, was well fancied each way, and she only just missed a place.

Nothing in the race, however, was backed with real spirit by the general body of speculators except Capture Him, who seemed to have such a fine chance on the handicap that he started a 9 to 4 chance. It was apparently one of his off days, like that at Epsom, where he failed so lamentably and then went on to win the Wokingham. He was drawn one away from the rails and was well away, but in the race would do nothing, and was always a beaten horse. He must have run quite a stone below his Victoria Cup and Ascot form.

Donoghue jumped Lord Wembley off in front, and was never actually headed again. Compiler made a gallant attempt to get at him, but the six-year-old seems to have lost just a little of his old speed, and he, in turn, was passed by Nothing Venture a hundred yards from home. This son of Prince Galahad ran a really good race, for he was one of the slowest of all off the mark and made up an immense amount of ground.

It was delightful weather, far and away the best of the three days, for the concluding afternoon, but again it was disastrous to the general run of backers.

Only two favourites have won at the meeting. The first was Beagle, at 11 to 4 on, during the opening day, and the second was Delius, who won the Eglinton Plate this afternoon after 7 to 2 had been laid on him. Thus the amazing run of success which Mr. Reid Walker has enjoyed at the meeting continued, and for the third afternoon in succession he won the most valuable prize of the day.

WON IN A CANTER.

Delius is one of the joint favourites for the Cambridgeshire, but his race to-day told us nothing more about his prospects at Newmarket than we knew before, except to show that he is well in himself. He had nothing to beat and he won cantering from It Snows.

Mr. Reid Walker then went on to annex another prize—the Shaw Memorial Welter, in which his colt, Inchrory, came in the straight to gain an easy victory from old Shippon, who was once tailed off, but was flying in the last furlong. Like his winners, Innuendo and Invershin, on the preceding afternoons, both Delius and Inchrory were sired by Invincible.

The Irish two-year-old, Captain Dixon's Roselake, cut but an indifferent figure in the Land of Burns Nursery Handicap, never looking dangerous. This race was won by Sir Charles Hyde's Lemin, who came from the distance to overhaul some others and to win comfortably by a length and a half and a neck from the favourite, Bell Rock, and Chandos. The last-named, who had been badly away in an all-aged selling race at Doncaster last week, had done well in a gallop with Dian last Saturday, and was a good deal fancied each way now. Considering that he was carrying top weight, he did well.

The Royal Borough Handicap at Windsor to-morrow should rest between NALDERA and Plimsoll, and I choose the former to win. MOYA, who is top weight in the Ivor Nursery, ran so well at Doncaster last week that she may win the Ivor Nursery. In her absence I would take SILVERWARE. In an open race for the Frogmore Welter ISTRIA may do well.

At Bogside I like the chance of SMACK in the Portland Nursery and of HENNA GIRL in the Gailes Plate. SHIPPON, if started again, might win the Montgomerie Plate.

PHŒNIX PARK.

TO-DAY'S SELECTIONS.

There is promise of entertaining sport to-day at Phœnix Park, which charming course is in capital order, and should yield good galloping. Chief interest will centre round the decision of the Maher Plate, in which class is certainly well represented, the cream of our two-year-olds being amongst those left in. Lavengro is not likely to be sent, and, in the absence of Archway, Cuddler or Laudamus may win. There is also material for a fine race for the Stamullen Plate, in which some of the best of our handicap horses are engaged, and the Stackallen Plate also wears an open appearance. The usual special train leaves Broadstone at 2.15 and returns at 6 o'clock. Selections are as follow:—

Swords Plate—**Empire Boy.**
Slane Plate—**Cygdar.**
Maher Plate—**Cuddler.**
Sandyford Plate—**Thestylis.**
Stamullen Plate—**Ragusa.**

17,000 GUINEAS FOR A YEARLING

The Press Association's Correspondent confirms the report that H.H. Aga Khan has purchased a yearling colt by Hurry On out of Ecurie for the record price of 17,000 guineas. The yearling was bred at the National Stud, Tully, Co. Kildare, and is an own brother to Diligence. The highest previous price paid for a yearling was 14,500 guineas, which Lord Glanely gave for Blue Ensign at Doncaster in 1920.

H.H. Aga Khan has been a lavish buyer of the best bloodstock, and in 1923 he purchased the Sheshoon Stud, Kildare, which Sir Henry Greer manages for him. Although he has not enjoyed the best of luck this season with his horses, the Indian potentate has registered some important successes, prominent among them being the Two Thousand Guineas with Diaphon, the St. Leger with Salmon Trout, the Jockey Club Stakes with Teresina, and the Cesarewitch with Charley's Mount, all in 1924. These victories enabled him to head the list of winning owners that year with a total of £44,377, and in 1925 he headed the list of winning owners in Ireland. H.H. The Aga Khan also races on extensive lines in France, and in 1924 he won the French Derby with Pot au Feu.

TO-DAY'S SELECTIONS.

The chief event in to-day's card is the Royal Borough Handicap. With the withdrawal of the heavy brigade at the minor forfeit stage, the imposts had to be increased by no less than 15lb. all round, and Naldera is now top weight with 9st. The filly failed at Chepstow, but at Goodwood she ran the City and Suburban winner, Warden of the Marches, to a head in the Chesterfield Cup, with Seradella, the eventual winner of the Great Yorkshire Handicap, "down the course." Donzelon is too temperamental, but there are interesting possibilities about Plimsol, who has been pleasing in home gallops at Manton. Desire, Galloper King, Gold Star and the greatly-improved Celebrate have possibilities, but Naldera may be worth another chance, though the Lambourn filly may find a tough rival in Gold Star. Selections are appended:—

Frogmore Handicap—**Niloak.**
Quickly Nursery—**Merry Thrush filly.**
Royal Borough Handicap—**Naldera.**
Pistol Plate—**Glanessa.**
Ivor Nursery—**Transgressor.***
Mill House Stakes—**Silver Crag.**

COCKER CLUB FIELD TRIALS.

IRISH SUCCESSES IN SCOTLAND.

At the Cocker Club's autumn field trials at Aughancairn, Scotland, Danceuse of Fews and her sister, Saucy Petronella, won first and second prizes respectively in the Open Stake. Both the dogs mentioned were bred and broken, and Danceuse owned and handled by Dr. Dawson, of Newtown Hamilton, Co. Armagh. Danceuse also won two silver cups and a special prize, and Dr. Dawson a handler's prize. Patch and Taffey, from the same kennels, won certificates in the Novice Stake. Danceuse and Petronella are by Gift of Ware, owned by Dr. Dawson.

SCOTTISH OPPOSITION TO THE BETTING TAX.

At a meeting of the Northern Owners and Trainers' Association, at Ayr yesterday, the proposed betting tax was condemned, on the ground that it would effectively kill racing. A resolution was passed to the effect that, with a view to the postponement of the tax, a vote should be taken of all owners and trainers in the country, asking them if they were in favour of refraining from entering horses after November 1st, or bringing other pressure to bear on the Government, or taking whatever steps the Association consider necessary. It was also agreed to co-operate with the Newmarket Federation and the Owners' and Trainers' Association of England.

COURSING.—Everybody interested in Coursing should read the Coursing Notes and Reports of meetings, written by an expert, which appear weekly in *The Irish Field* throughout the season. On Sale at all Newsagents. Price 2d.—(Advt.)

MATCH FOR DRUMCOLLOGHER RELIEF FUND.

With commendable promptitude the Free State Association and Free State League have come to the assistance of the dependents of those who lost their lives in the fire at Drumcollogher. HUNTING.

THE KILDARE HOUNDS.

The season 1926-27 was opened on Wednesday last at Kilmeague at 6.30 a.m. Sir Thomas Ainsworth had out a pack composed principally of old hounds, as there has been some distemper recently among the young lot. A fine litter of cubs was found in Kilmeague Bog, which afforded a good deal of hunting before a brace were killed.

The pack consists at present of 57 couple, which it is proposed to draft down to 48.

The Master intends to hunt four days next week, and to continue to do so. He has brought with him Grant and Dunne, as first and second whippers-in from "the Blazers." The prospects for sport are good.

YACHTING.

FIXTURE.

To-day—Sweepstakes Match for 17-footers. First gun, 3.25 p.m.

AT KINGSTOWN.

As far as we are aware, this sweepstakes match for the "Seventeens" is the only sailing fixture for the afternoon. There may be a race for the same class at Howth also, but if there is we have not had word of it up to the time of writing; and we feel, as everybody does, that the sailing season really is over, even if the glorious weather which prevails seems too good to be wasted. As long as the spell lasts so long, however, will the great bulk of the smaller sized yachts remain in commission. Only Kismet of the larger cruisers remains in moorings. The 25-footers are beginning to strip, and in a week or so there will be a rush for winter quarters.

EDWARD YACHT CLUB.

The annual general meeting will be held this evening at 8.30 o'clock. The attendance of members is requested.

HANDBALL.

MATCH FOR IRISH TITLE.

To-morrow, at The Boot covered court, J. J. Kelly (holder) will defend his title against P. Lyons (Leinster Champion) in a rubber of 15-21's. As Lyons, who held his title for 20 years and also held the Irish title in 1909 and 1918, is reputed to be in great form, a rousing contest should result. Play will commence at 3 o'clock.

BILLIARDS.

SMITH v. DAVIS.

Smith got to within 23 points of his opponent during the afternoon session in his 9,000 up match at Hull yesterday. The feature of the play was a fine break of 349 (unfinished) by Smith, who also had runs of 247 and 138. Davis only once got past the century mark, scoring on that occasion 136. Interval scores:—Davis (rec. 1,500), 6,775; Smith (in play), 6,752.

Smith took the lead at his first innings in the evening session, when he carried his unfinished 349 to 868. He retained his advantage throughout, and at the close of play was 188 points in front. His other breaks were 78 and 112 (unfinished), while Davis had 117, 196, and 75. Closing scores:—Smith (in play), 7,502; Davis (rec. 1,500), 7,314.

CHESS.

BELFAST AND DUBLIN NOTES.

On Belfast the attention of Irish Chess players is fixed, for in that city it was arranged last year that this year's tourney for the championship of Ireland should be played. It is learned that the preliminary meeting of secretaries of the Belfast clubs will be held in the first week of October, and some definite announcement may be expected shortly afterwards.

A match by correspondence is in progress between the *Belfast News Letter* and the *Greenock Telegraph*. The Scottish side led at first by 1½ to ½, but by his victory over Mr. Dobson, Mr. S. E. Manderson makes the score 1½ all. Mr. Manderson is the hon. sec. of the Ulster Chess Union.

Dublin players have had the pleasure this week of renewing their acquaintance with Mr. J. R. Orr, of Belfast, whose sound and stylish play made him an always welcome visitor.

HOCKEY.

LEINSTER BRANCH I.H.U.

Routine business occupied the attention of the annual meeting of the Leinster Branch—Mr. W. F. M'Donnell in the chair—throughout a long sitting last night. On one proposal only was there any prolonged discussion. This was the proposal, standing in the names of Dublin University and Three Rock Rovers, to abolish the Senior League, substituting therefor club matches. After a full debate the proposal was negatived. Two minor additions were made to the rules of the Branch.

The outgoing officers presented their reports for the past season, all of which were adopted, and the elections for the year 1926-27 resulted as follows:—

The ballot for the Selection Committee resulted as follows:—W. F. M'Donnell, J. S. M'Mahon, W. Chiddick, J. W. F. Crawfurd, and T. S. C. Dagg.

GOLF.

CLONTARF OPEN WEEK.

P. O'HARE'S VICTORY.

THREE TIES FOR SECOND PLACE.

Predictions were fulfilled yesterday at Clontarf, when there was an exceptionally close finish for the first and second prizes in the Irish Professional Competition, but throughout the tournament Pat O'Hare, who is at present unattached, retained the leading position, and headed the final aggregates, winning by a margin of four strokes from James Bailey, William Nolan and J. Quinn, the first of the Ulstermen being Leo Wallace, whose last round of 72 brought him up into fifth place. It was a capital performance by O'Hare; but, perhaps, the surprise of the tournament was James Bailey, who gets little play, being clubmaker to Tom Shannon at Milltown, but, nevertheless, finished only four strokes behind the winner.

When the third round concluded yesterday O'Hare held a lead of a couple of strokes from W. Holley and M. McDermott, who in turn were three strokes better than W. Nolan. The last-named made a fine effort to overtake the leader, but O'Hare returned his third 72 for an aggregate of 293. Leo Wallace and P. O'Connor had a similar round, but it remained for Nolan and Sam Fairweather to share the distinction of making a professional record for the course, each returning 71, their respective cards reading:—

Nolan—453334553; 544354524=71
Fairweather—444444643; 444453334=71

O'Hare on the last round reached the turn in 36, and he took the same number coming home, his golf being remarkably sound on the whole. He played a few shots which might have been the means of depriving him of the lead; but he got out of it well on those occasions. The local man, J. Quinn, experienced rough luck playing the last hole. He had missed two putts at the 12th and 15th, but a badly-pulled drive to the home hole was his most serious mistake. He had a rather difficult second shot, with the side bunker to get over, and flopping into it and failing with a splendid long putt for a 4, the ball pulling up on the edge of the hole, he lost the second prize by one stroke. He was out in 38, and home in 37. J. Martin, who occupied third place overnight, dropped behind, his third round being 79 and his last 76, and 78 and 77 put M. McDermott from second position to the sixth, for which he tied with W. Holley. The Week will conclude to-day with the men's four-ball against bogey. Scores and aggregates:—

THE PROFESSIONAL TOURNAMENT AT PORTMARNOCK.

Owing to unforseen circumstances, Abe Mitchell will be unable to accompany George Duncan on the Irish tour, but Arthur Havers will take his place. The committee of the Portmarnock Club have arranged an excellent programme for the week as follows:—

Tuesday, 28th September—Exhibition match, 36 holes, with Irish amateur golfers.

Wednesday, 29th—Exhibition match, 36 holes, with Irish professional golfers—W. Nolan (Portmarnock) and W. Holley (Castle).

Thursday, 30th—Exhibition match with Irish amateur golfers.

Friday, 1st October—Morning—Exhibition match with Irish amateur golfers. Afternoon—Exhibition match with Irish professional golfers—D. Murray (Skerries), J. Sullivan (Bray).

Saturday, 2nd October—36 holes stroke competition between Duncan and Havers. A prize of £10 will be awarded to the winner, and there will be an additional prize of £15 for the lowest score by either of these players over 18 holes, provided the score is under 73. In the event of a tie for strokes under 73 the extra prize will be divided between both competitors.

Play will start each day at 11 a.m. and 3.15 p.m., and it is anticipated that the programme which has been arranged will attract a large number of the golfing public to Portmarnock. Members of Portmarnock Club will be admitted to the links free of charge, and there will be a charge of 2/6 each day for non-members.

RUGBY.

PRACTICE GAMES TO-DAY.

Although the weather during the week has been more suitable to cricket than Rugby football, most of the Dublin clubs have already held practice games, and all the seniors will be in action to-day. A most encouraging sign for the game is its spread through the Southern province. Almost every town of any importance now has its Rugby club, and in time this must have a beneficial effect on the game generally. On next Saturday the season's match fixtures commence, the matches arranged being Lansdowne v. Palmerston, Old Wesley v. Wanderers, and Blackrock College v. Bective Rangers, while on the following Saturday all the senior clubs will have fixtures.

IRISH RUGBY UNION.

ANNUAL MEETING OF NORTHERN BRANCH.

Mr. A. R. Foster (President) presided last night at the annual meeting of the Northern Branch of the Irish Rugby Football Union, when an encouraging report was presented. It mentioned that during the past season the branch comprised 53 clubs. Regret was expressed at the resignation of Mr. G. G. M'Crea from the position of hon. secretary, which he occupied for 18 years. It was entirely due to his energy and enthusiasm that the branch possessed Ravenhill, and the committee were anxious that the present generation of players and clubs should realise the deep debt of gratitude due to Mr. M'Crea for all that he had done for Rugby football in the North. The committee reported with satisfaction that a County Championship Scheme had been inaugurated, and would be in full operation during the coming season. By this players who might otherwise have little chance of representative football will appear before the Irish selectors, and it is hoped that the Irish XV. will benefit by the scheme.

During the year the committee received a request from the Ulster Head Masters' Association that the Ulster Schools' Cup should be withdrawn, and the committee replied that they had no power to withdraw the cup.

The financial statement showed a balance in bank of £102 1/6, after a contribution of £2,000 had been paid to the Union towards the cost of Ravenhill ground.

In the discussion on the report the suggestion of withdrawing the Schools Cup came before the meeting, and it was finally decided that the President and some members of the Committee, together with Dr. Boyd Campbell, S. Lee, A. Telford, S. T. Irwin, D. Cunningham and A. Barr, should approach the Ulster Headmasters' Association with a view to a discussion of the difficulties which had arisen and their removal, so that the Cup competition could be carried on in a manner unobjectionable to the Association.

The election of officials resulted as follows:—President, H. F. Shepperd; Senior Vice-president, R. Wallace Harland; Junior Vice-President, J. Gillespie; Hon. Treasurer, H. S. Johnston; Hon. Secretary, W. A. B. Douglas.

Mr. F. J. Strain explained that it was not exactly correct to say that the Welsh match was transferred to Dublin on account of the entertainment tax. It was more correct to say that if the tax had been reduced the Irish Rugby Union would have sacrified a very considerable sum to show their appreciation of the assistance given to their clubs.

RUGBY FOOTBALL UNION.

Mr. J. Baxter, the President of the Rugby Union, presided yesterday afternoon over a meeting of the Committee at The Grand Hotel, Trafalgar square, London. The heartiest congratulations were extended to Sir G. Rowland Hill on the honour of knighthood accorded him by His Majesty. The details of the proposed tour of the New South Wales Rugby Union team in the season of 1927-'28 were announced, and will be published in due course. The match with England will be played at Twickenham on January 7th, 1928. There will, most likely, be a meeting of the Imperial Conference in London in November. The Sub-Committees were appointed as follow:—Finance and Emergency—Messrs. Baxter, Donne, Ferens, Gurdon, Sir Rowland Hill, Messrs. Prescott, Waters, Oakes, Stoop, and Admiral Royds. International Board—Messrs. Baxter, Gurdon, Sir Rowland Hill, and Admiral Royds. Ground—Messrs. Crumbie, Dixon, Donne, Ferens, Prescott, Stoop, Waters and Pearce. County Championship—One representative from each county in the competition. Laws—Messrs. Adams, Baxter, Brown, Cartwright, Donne, Pearce, Potter, Irwin, Price, Stoop, Trollope, Waters, Wakefield, Wray, and Admiral Royds. Selection—Messrs. Baxter, Daniell, Davies, Hartley and Robinson. Dinner—Messrs. Gurdon, Prescott and Waters. For the current season the referees for County Championship matches will be appointed by the Rugby Union, the Sub-Committee responsible for this duty being Messrs. Baxter, Adams, Oakes, Trollope and Pearce. A number of new clubs were admitted to membership of the Union.

COOMBE HOSPITAL.

END OF CENTENARY CELEBRATIONS.

The centenary celebrations of the Coombe Lying-in Hospital, Dublin, were brought to an end yesterday afternoon with a garden party in the Zoological Gardens, given by the Board of Governors and Directors of the hospital. The guests, who numbered close on two hundred, were received by Mr. Hubbard Clark, Chairman of the Board, and Mrs. Hubbard Clark.

The company was for the most part made up of Dublin medical men and their families, invited to meet the distinguished gynæcologists attending the International Congress in Dublin. President Cosgrave was of the party, as was the Chief Justice and Mrs. Kennedy. Others not connected with the medical profession were the Earl of Belmore, D.L.; the Very Rev. Canon Davis Thompson, the Very Rev. J. C. Joy, S.J.; the Rev. Dr. Denham Osborne and Mrs. Denham Osborne, Mr. Lennox Robinson, Mr. and Mrs. Denis Barrett, the Rev. J. O'Donoghue, C.C., the Governors and friends of the Coombe and Miss O'Carroll, the matron.

The visitors who had not been there before were charmed with the gardens, seen, as they were, at their best, in the mellow sunshine of an autumn afternoon. Residents as well as visitors were delighted with the music supplied by the No. 3 Army Band.

CLOSE OF THE CONGRESS.

The closing meeting of the International Medical Congress was held yesterday forenoon in the Royal College of Surgeons. Sir William J. Smyly again presided.

A paper dealing with Eclampsia was read by Professor Hinselmann, of Altona, and a discussion followed, in which Dr. G. FitzGibbon and others took part.

Professor Beckwith Whitehouse, of Birmingham, read a paper on a cognate subject.

Professor Donald, Manchester, moved a vote of thanks to Sir William Smyly for his conduct in the chair during the three sessions. He said that the Congress had been most successful. They had had a fine programme, drawn up as it was by Dr. L. Cassidy. All the arrangements for the comfort of the visitors were perfect, and the proceedings had gone through without a hitch. The visitors from outside Ireland were of a representative type, and they had met with kindliness from their Irish hosts.

The success of a Congress of that kind depended upon the manner of the man who presided, and in that instance they had a perfect chairman. (Hear, hear.) They appreciated Sir William Smyly's genial manner, and the Congress owed him sincere thanks. He had known their Chairman for a longer period than most of those present, and he had seen him throw oil upon troubled waters when discussions were more vigorous than they were here. (Hear, hear.) But above all his ability was the loveable nature of the man, and he (Dr. Donald) had much pleasure in proposing a vote of thanks to him.

Professor Munro Kerr, Glasgow, seconded, and the vote was passed with acclamation.

Sir William having replied, the proceedings of the Congress came to an end.

DESERTED WIFE.

LEFT BEHIND AFTER TEN DAYS OF MARRIED LIFE.

Her husband having failed to bring her out when he had a home for her, as he had promised when, after ten days of married life, he sailed from Belfast for Canada on the 10th May, 1924, and, as she claimed, became unfaithful, Mary Josephine Donnelly, 12 Tralee street, in the Belfast Summons Court yesterday, sought an affiliation order under the Married Women's Maintenance Facilities Act, 1920.

The applicant said that she was married to Thomas Donnelly on the 30th April, 1924, at St. Paul's Roman Catholic Church, Belfast. When he left for Canada he asked her to continue living with her mother until he had made a home for her. He corresponded with her up till the 19th March of the present year, but he had not sent her any money since Christmas, 1924. She had reason to believe that her husband was unfaithful to her, and she produced a report from the Toronto police on the subject, and also letters from her husband in which he refused to give the other woman up. She got word that he was working at Preston Springs Hotel, Ontario. He had deserted her and refused to support her, and she prayed that the Court should make an order against him.

The Court made an order declaring desertion, and the matter will be followed by proceedings in the Canadian Courts.

Knife Used After Darts.—Remarking that it was a serious assault, in which a knife was used, Mr. H. Toppin, R.M., in Belfast Custody Court yesterday, sentenced Hugh Dallas, Matlock street, to a month's imprisonment, with hard labour, and Robert Dallas, his brother, to a week's imprisonment, and fined John McGee, Conlon street, 20s. for assaulting John Bennett, 11 Conlig street, Belfast. The affair followed a dart-throwing competition, and Bennett asserted that Hugh Dallas hit him with a sharp instrument, and that the other men also assaulted him, with the result that five stitches had to be put in a wound near his eye.

BOYS FIGHT IN A BARN.

SCENE DESCRIBED IN WATERFORD COURT.

A fight between two boys in a barn with a brush and a three-pronged fork was described at the Waterford Children's Court yesterday. Philip O'Brien, Gallowshire, Waterford, was the defendant, and the other boy was Michael Clery, of Waterford. Both boys were harvesting for a Moonvene farmer named Walsh.

Clery, it was stated, received a letter from his mother, and O'Brien wanted to know what was in the letter. Clery refused to tell him, and O'Brien attacked him with a three-pronged drag fork. Clery took up a yard brush to defend himself. A fight around the barn followed, during which Clery was struck twice with the fork and rendered unconscious.

O'Brien said that Clery taunted him about his mother.

The case was adjourned for a fortnight.

LETTERS TO THE EDITOR.

ARMISTICE DAY IN DUBLIN.

TO THE EDITOR OF THE IRISH TIMES.

SIR,—May I, in earnest support of Mr. Mortished's appeal, recall to your readers' minds the purport of a letter published by you shortly after Armistice Day last year? The writer described how keenly, till then, his enthusiasm had been aroused when he heard the strains of "God Save the King," and how puzzled he was to find that, on that day, it awoke in him nothing of the old response, but, on the contrary, seemed to strike something of a discordant note. It was only later that he recognised the reason. There were others there whose tribute to the dead was as sincere as his, but who could not join with him in those strains, and so there was wanting the inspiration of a common purpose and a common sympathy at a time when he would have been in unison with all who came to do homage to the dead. It was a very fine letter: I wish I were able to do justice to it.—Yours, etc.,

EDWARD P. CULVERWELL.

Howth, September 17th, 1926.

DUBLIN AND LUCAN.

TO THE EDITOR OF THE IRISH TIMES.

SIR,—It will, doubtless, be welcome news to many of your readers that a contract has been entered into for large expenditure upon the improvement of the main road from Dublin to Lucan, and still more welcome to learn that the proposed improvement includes considerable road-widening and removal of "blind" corners. The Committee of the Irish Motorists' Union, however, regrets to learn that difficulties have arisen which may not only impede the progress of this urgently necessary work, but—unless handled in a wise and generous way by all the parties concerned—may largely neutralise the value of the general improvement scheme and lead, at a comparatively early date, to the necessity for considerable wasteful expenditure.

The difficulty, it is understood, arises from the condition of suspended animation in which the Dublin and Lucan Railway has been for some time past, and which must apparently continue, in some measure, pending the passage of the Dublin United Tramway Company's private bill through the Oireachtas. While it is obviously impossible either that the work of road reconstruction should be postponed for several months, or that the Tramway Company should incur large capital expenditure pending formal ratification of their agreement to widen and relay the existing tracks, it should be possible that road and tramway reconstruction should at once become the subject of joint design between the experts of the County Council and the Tramway Company respectively.

If such close consultation takes place now, the interests of both parties would benefit; possibilities of serious blunders and wasteful expenditure would be avoided, and—most important of all—public safety and convenience would be assured upon an important highway which has gained an unenviable reputation for serious accidents. Our Committee feel satisfied that the Tramway Company may be relied upon to co-operate fully in preparatory work which is not only necessary in the public interests, but will help to expedite and simplify their own work of reconstruction within the next few months.—Yours, etc.,

T. MORGAN GOOD,
Chairman, Irish Motorists' Union.

PORTRUSH'S £10,000 SCHEME.

RATEPAYERS' OPPOSITION.

Mr. John Bates, engineering inspector to the Northern Home Ministry, on Thursday held an inquiry in the Town Hall, Portrush, into the application of the Urban Council for the sanction of the Ministry to a loan of £10,000 for the purpose of improving and extending the sewerage system. There was considerable opposition by the ratepayers, who contended that the proposed new outfall at the Black Rocks would not remedy matters at the West Strand.

Mr. W. J. Cunningham, Town Clerk, examined by Mr. R. O'Neill (Messrs. Macaulay, O'Neill and Martin), said that the present rates were 10s. 8d. in the £. The total expenditure in connection with the new scheme was estimated at £12,000. An unemployment grant of £2,664 in respect of wages would be made by the Ministry of Labour, leaving a balance of £9,336 to be raised by loan. On a thirty years' loan the cost to the ratepayers would be approximately 1s. 1d. in the £.

Dr. H. A. Anderson (Messrs. Anderson and Co.), acting on behalf of a number of ratepayers, said that the objectors contended that the scheme was objectionable and unsuitable in some respects too extensive, elaborate and unnecessary in other respects. The seasons latterly had been bad, and this was an inopportune time for the ratepayers to be asked to shoulder additional taxation.

The hearing occupied eight hours.

It is already crowded, and the Shrine has aroused a deep spirit of Devotion to Our Lady of Lourdes, with most beneficial results among the people.

The Accommodation afforded by the Temporary Structure is inadequate. The Administrator strongly appeals to the Catholics of Dublin and of Ireland for the means to undertake the building of the New Church. The district being one of the most densely populated and poorest in the city, little pecuniary aid can be expected from it.

Speaking in Londonderry yesterday, Mr. Andrews, Northern Minister of Labour, expressed the belief that better times were at hand, and that when the coal strike was settled the industrial position in the North would improve.—(Page 8.)

GREAT BRITAIN.

Mr. Baldwin has offered to establish a National Tribunal to review local agreements made between miners and coal-owners.—(Page 7.)

William Gully, a London stockbroker, was sentenced to five years' penal servitude at the Old Bailey yesterday for the fraudulent conversion of clinets' moneys.—(Page 8.)

ABROAD.

General Hertzog, Prime Minister of South Africa, sailed yesterday for England to attend the Imperial Conference.—(Page 8.)

M. Briand and Dr. Stresemann, in an interview at luncheon yesterday, came to an agreement on all points outstanding between France and Germany.—(Page 7.)

SPORTING.

At Ayr yesterday Delius won the Eglinton Plate.—(Page 4.)

FINANCIAL.

London Stock Markets were steady. The most interesting section was the Mining Market, which was active.—(Page 10.)

The Treasury Bill rate at 4⅝ per cent. was slightly below last week. Loanable credits were in ample supply, and borrowers were accommodated at 3¾ per cent. Discounts were steady.—(Page 10.)

In Dublin the market was somewhat irregular. Bank Stock rose to 282, and Guinness shares rose 1/16 to 60⅝, after being 60⅞.—(Page 10.)

Mr. Baldwin's Plan.

The outlook in the coal dispute has been brightened by the Prime Minister's refusal to accept defeat. He has contrived a middle way between the miners' insistence on a national settlement and the colliery-owners' absolute rejection of a three-party conference. Yesterday Mr. Baldwin met Mr. Evan Williams, President of the Mining Association, and afterwards the Cabinet Coal Committee was in session for some hours with the miners' leaders. At the end of this meeting Mr. Baldwin produced, in the form of a letter, new suggestions for a settlement. The Government proposes that the miners shall return to work immediately on the basis of district agreements in their various areas. As soon as the resumption of work has become general the Government will pass an Act of Parliament for the establishment of a National Arbitration Tribunal—unless in the meanwhile a national settlement has been reached. Either party to any district agreement that increases the old hours of labour may bring the terms before the new Tribunal. The Tribunal will confirm or modify these terms, and wages will be fixed by law in accordance with its decision. Mr. Baldwin's plan is ingenious in its use of the single point where the mens' demands and the owners' refusals do not clash. The owners, as his letter states, are ready to observe the main principles that a national agreement would be designed to secure; but they reject any agreement that would apply hard-and-fast rules to the different conditions of different districts. By the working of the proposed Tribunal the authority of general principles might be substituted for the operation of hard-and-fast rules.

From the Government's point of view the merits of the plan are obvious. The coal dispute has entered upon its twenty-first week and winter is approaching. A final settlement, based on a reconciliation of local independence with some form of national supervision, must be a tedious and delicate task. It is enormously important, therefore, that work shall be resumed in the pits without further delay. Some light will be thrown on the miners' attitude when the full executive of their federation meets next Monday. For the moment we are disposed to accept Mr. A. J. Cook's snarling comment on Mr. Baldwin's letter as a good omen, since it suggests a fear that the weapons of political agitation have been blunted. Indeed, the miners would add lunacy to folly by a rejection of Mr. Baldwin's offer. Knowing that they have lost their battle, they can get no comfort from a purposeless prolongation of the public misery. Already one hundred thousand men have gone back to work. The drift increases day by day, and some 500,000 tons of coal are being produced weekly from the mines. A collapse of the strike is inevitable if common-sense fails to intervene; but lingering collapse would be, socially and economically, the worst form of settlement for everybody. Now the miners are invited to resume work at once on terms which, subject to a slight increase of working hours, are better in most cases than the old terms. The Government's plan will "save their faces," and the National Tribunal will guarantee a standard of just treatment throughout the land. We think that Mr. Cook has good cause for alarm.

The fate of the Government's plan will depend on the colliery-owners' attitude. There can be no doubt that the proposals inflict a measure of coercion on the owners. Their consent is not a term of the establishment of the National Tribunal: it will come into existence, with or without their approval, if all the miners resume work immediately. The owners have lost heavily through the coal dispute, and they desire sincerely a settlement that will be fair, permanent and productive of long-delayed reforms. They are convinced that such a settlement will be possible only if conditions in the coal industry are arranged between the men who own the mines and the men who work them. They may be willing to accept some general principles of management in the form of regulations evolved by a National Tribunal, but they will tolerate no further interference by persons whose trade is the manufacture of political discontents. The character of the proposed Tribunal, therefore, will be the crux of the Government's plan. If it is an impartial body, concerned solely with the industry's economic welfare, the colliery-owners may accept it. If Mr. Cook and his friends are to have the slightest influence in its decisions, the owners will reject it; and the country will be on their side. Mr. Baldwin is not only a resourceful, but a wise, man. He must be well aware that Parliament would refuse to pass legislation which would give fresh play to Communist influences, and in that assumption lies the best hope for the success of his latest overture. If the miners return to work now, they must return on the clear understanding that in the new dispensation of the coal industry persons of Mr. Cook's type will be "down and out."

France and Germany.

The French and German Foreign Ministers had a long conversation yesterday in circumstances which are dear to the heart of the professional diplomatist. Everybody at Geneva knew that M. Briand and Dr. Stresemann proposed to discuss their common difficulties before their return to their respective capitals. Their steps were dogged by importunate journalists and Press photographers; but yesterday morning they contrived to elude all their pursuers and to foregather in the little village of Thory, just across the French border, where they talked *tête-à-tête* for several hours. They drove back to Geneva in separate motor cars, having succeeded in outwitting the journalistic ingenuity of five Continents, and yesterday evening issued a joint statement to the effect that they had composed all their differences. This development is of the greatest political importance. No secret has been made of Dr. Stresemann's views concerning Germany's relations with France. He is most anxious to promote good feeling between the two countries which have been enemies for so many years, and went to Geneva with a definite programme in his pocket. In the first place, he wants the military occupation of the Rhineland abolished. Now that Germany has a seat on the Council of the League of Nations, he argues, there can be no longer any question of "military guarantees." Her membership of the League, reinforced by the Treaty of Locarno, gives France the best possible pledge of security, and the only possible excuse for a continuance of the military *régime* in the Rhenish provinces is its value as a guarantee that reparations will be paid. Germany seems to be willing to give France concrete proof—in the shape of railway bonds or something of the kind—of her intention to fulfil the obligations of the Dawes Scheme to the pfennig, on condition that the Paris Government shall agree to withdraw its troops from the Rhine. In the next place, Dr. Stresemann wants the Saar Valley to be restored forthwith to Germany. Under the Treaty of Versailles a plebiscite of the inhabitants must be taken nine years hence; but, as the result of this vote will be in Germany's favour, whether it is taken in 1936 or in 1946, the Berlin Government contends that the retention of the present arrangement is as unnecessary as it is irritating. If M. Briand has agreed in principle to meet the German views on these matters, an enormous advance has been made towards the insurance of world peace. Premature rejoicings, however, would be foolish. The European public has not yet forgotten the famous Cannes conference at which M. Briand "composed his differences" with Mr. Lloyd George over a game of golf, only to be recalled and virtually dismissed immediately afterwards by M. Poincaré, who is Premier of France again to-day. Be that as it may, an excellent beginning has been made. M. Briand and Dr. Stresemann alike have displayed qualities of the highest statesmanship, and, by their manifest desire to work together, have set an admirable example to those leaders of other nations who continue to put their individual interests before the welfare of the world.

Food Prices.

In anticipation, no doubt, of the Food Council's recommendations, which may be issued next week, a reduction in the price of tea in England is expected almost immediately. In England, as in Ireland, tea constitutes a very important part of the people's daily fare, and the slightest fluctuation in its price has an instant effect on the index figures for the cost of living. The cost of tea-production in India has been virtually doubled during recent years, but the English market has shown some curious anomalies. The poorer grades of tea have fallen steadily in price, while the superior qualities are fetching as much as from threepence to one shilling *per* pound more than they fetched last year. It seems that the public's palate is becoming more fastidious, with the result that, while cheap teas are more or less a glut on the market, the demand for the finer brands continues to exceed the supply. The whole problem of the cost of living across the Channel is causing some anxiety. The average level of retail prices on September 1st was two points greater than it was on August 1st, and next month it is likely to be even higher. The Food Council is very active in the interests of the consumer. It has demanded from the dairying trade an explanation of the recent rise in the price of milk, and generally is proving itself to be a most useful institution. In the Free State, although the cost of living is higher than in England or Northern Ireland, traders seem to be able to charge their own prices for everything. No attempt is made to check the rapacity of the small shopkeeper, who supplies the necessaries of life to the poor, with the result that Dublin to-day is one of the most expensive cities in Europe. The discrepancy between living costs in Dublin and Belfast is significant, especially in view of the fact that the tea duty has been abolished in the Free State; and the time is coming when the Southern Government will be forced to take drastic action to protect the purchasing public.

A Message to Mars.

The suggestion of an American professor that communication between the earth and Mars might be established by means of short wave "wireless" signals is discussed by a correspondent of the *Manchester Guardian*. Mars is never closer than 35,000,000 miles to our planet, and sometimes is as far as 61,000,000 miles away from us. The prospect of direct communication, therefore, is highly remote; yet the "radio" experts are considering it seriously, and the results of their investigations are of interest even to the layman. The earth's atmosphere is surrounded by what is known as the Heaviside Layer, an extremely conductive upper atmosphere, which is calculated to have the same degree of conductivity as a sheet of copper one metre in thickness. The American's theory is that, if signals could be transmitted with enormous power and in very short wave-lengths, they would be first absorbed by this layer, from which, however, they would escape eventually, and go gaily on their ethereal way towards Mars. There is little doubt that the Heaviside Layer would absorb the signals, but the possibility of their further progress is slight. However strong such signals might be, they would meet this powerful resistance within the first hundred miles of their 35,000,000 mile journey—a fact which would be likely to cramp their style considerably. Besides, even if a stray signal should reach our nearest neighbour, there is no guarantee that anybody would understand it or that, if he should understand it, he would take the slightest interest in our mundane affairs. Some day, no doubt, contact will be established, but we confess that the prospect does not excite us unduly. Life is sufficiently trying without further cosmic complications, and the discovery of a Martian 2RN would add little to its scanty amenities.

THE PRINCE OF WALES.

DAMAGED HAND CAUSES NO ANXIETY.

The Prince of Wales, who returned to York House, St. James's Palace, late on Thursday night, motored out to a suburban golf course yesterday and spent a full afternoon on the links. He wore "plus fours," looked remarkably well, and seemed to enjoy his game thoroughly. There was no sign of trouble with the hand which he damaged slightly while golfing on the Continent.

The Prince will spend the week-end in and about London, will pay at least one visit to the theatre, and will probably leave on Tuesday night for Balmoral to visit the King and Queen.

With regard to a report that Dr. Smart, one of the Prince's physicians, had been summoned specially from Southampton in connection with his strained hand, it is stated that there is no occasion for alarm. His Royal Highness was advised to have his hand examined by an expert in case the straining of the muscles should show a tendency to affect their flexibility. Dr. Smart, accordingly, was asked to see him at his convenience.

BRITISH ARMY OPERATIONS.

A MIMIC BATTLE.

The Press Association's Special Correspondent at Frimley telegraphs:—The battle between Northland and Southland, which began at 5 p.m. on Thursday with the march from the Devil's Punch Bowl, at Hindhead, ended at 1 o'clock yesterday afternoon, on the hills south of Bagshot, with a charge of cavalry and tanks, to the accompaniment of every kind of gunfire. It was the most wonderful mimic battle of the training season, for during twenty hours it was fought under all possible weather conditions.

CLAIMANT TO £500,000.

CANADIAN FARMER COMING TO DUBLIN.

Mr. William H. Barrett, an Ontario farmer, arrived in Liverpool yesterday on the Canadian Pacific liner Montroyal, from Quebec, to claim an estate worth £500,000, says the Press Association.

The estate, part of which is situated in Ireland, was the property of Mr. Quintin Dick, who died in 1858. An inquiry to discover an heir-at-law was ordered, and a claimant was found in Mr. Barrett.

Mr. Justice Romer decided in the Chancery Division, London, in July last that Mr. Barrett's claim was not barred by the "name and arms" clause in the will, to which the present trustees, Lord Cloncurry, of Lyon, County Kildare, and Mr. J. C. T. Herez Smith drew attention.

The clause stated that the person entitled should adopt the surname and use the arms of "Dick," but that if he refused or neglected to do so within a certified time, the estate should go to the person next beneficially entitled in remainder. Mr. Justice Romer held that Mr. Barrett was ignorant of the will, and that in the circumstances he could not have refused or neglected to comply with the conditions.

Mr. Barrett travelled with his wife and two sons, and was met at Liverpool by a lawyer. He left for London later, and was said to be coming to Dublin to pursue his claim.

NEW EDITOR OF THE "DAILY MAIL."

Mr. Walter G. Fish, C.B.E., who for several years was news editor of the *Daily Mail*, and is a director of the Associated Newspapers Company, Limited, has been appointed editor, in succession to Mr. Thomas Marlowe, whose resignation was announced this week. Mr. Fish, who is 52 years of age, was born in Accrington, Lancashire, and in 1918 occupied the position of Honorary Director of Publicity in the Coal Mines Department of the Government. He was educated at Westminster City School.

BRITISH AND AMERICAN NAVAL CLAIMS.

American naval representatives have arrived in England to discuss with officials of the British Admiralty the adjustment of outstanding claims arising from operations of the United States and the British Navies during the war.

Captain Hills, one of the American officials, said that the claims were in two parts, the first dealing with collisions and salvage cases, and the second with the supply of materials furnished by one Government to another. The amount involved represents several million dollars.

GREEK AEROPLANE ORDER.

ATHENS, Friday.

The Commission appointed to study the needs of Greek aviation has placed an order for twenty-five aeroplanes with the Morand Works at Puteaux, France, the aeroplanes to cost 4,100 dollars each. LONDON LETTER.

THE PREMIER'S PLAN.

59 FLEET STREET, LONDON.
FRIDAY NIGHT.

Considerable activity was noticed in Downing street to-day, when a new series of negotiations was opened. The Prime Minister received the President of the Mining Association, and afterwards had an interview with the officials of the Miners' Federation. It is understood that the interviews in themselves were not of great importance, but were for the purpose of ascertaining whether it might be possible to bring about a three-party conference which could be attended by the Executive of the Miners' Federation and the representatives from the district owners' associations. The Prime Minister also was anxious to learn the views of those concerned as to the possibility of a temporary resumption of work while a more permanent settlement was under consideration.

Government and Owners.

No time is to be lost, if it is possible to arrange a settlement, whether of a temporary or permanent character. Mr. Baldwin has returned home with the firm intention of bringing the strike to an end at the earliest possible moment, and he will do everything that he can to bring about that end. At the same time it has to be understood that the Government has no intention of doing anything that the owners can consider coercive; for it is recognised by the Government that the owners must receive treatment similar to the miners. It was said in political circles this afternoon that the Government is so anxious to get the men back to work that it is prepared to offer a guaranteed national endorsement of local settlements, provided the men return pending a more permanent settlement. In the meanwhile the owners maintain that this new outburst of negotiations is a real obstacle to any further resumption of work.

A Labour View.

As a way out of the present deadlock in the coal dispute, the *New Statesman*, after referring to the report of the Royal Commission on Coal, suggests that "the best course probably would be to re-appoint the Commission and to give it powers for a period to fix rates of wages for all the coalfields, or, at least, a binding minimum percentage below which no district minimum might fall. A variant on this would be to re-appoint the Commission as a court of inquiry and thereafter carry a Bill to give its findings the force of law. Another variant might be, while giving the Commission power to prescribe a binding national minimum, so to amend the existing Coal Mines (Minimum Wage) Act as to enable the district boards established under it to fix binding district minima for all grades of workers. If Mr. Baldwin can think of a better plan, let him do so."

The Leasehold System.

It is rather interesting that in these days, when so many private landowners are trying their utmost to part with their estates and are freely offering freeholds to leaseholders for purchase, agitation should be revived for reform of the leasehold system. A Leasehold Reform Association, with Sir Henry Barton as president, has been created, and it has a considerable number of supporters. The programme of reforms includes the establishment of a tribunal to arbitrate on all points of difference arising between landlord and tenant, recognition of the tenant's right to renew his lease on fair terms, and several other points of a similar character. The aim of the association is to bring about leasehold enfranchisement as the most reasonable solution of a position made difficult for all parties.

The Ellerman Press.

The announcement that negotiations are taking place for the sale of an important group of weekly publications now controlled by Sir John Ellerman, to a group headed by Mr. William Harrison, Chairman of the Inveresk Paper Company, aroused considerable interest today. The group includes the *Illustrated London News*, the *Sphere*, the *Tatler*, the *Sketch*, *Eve* and the *Illustrated Sporting and Dramatic News*. Mr. Harrison, who is a solicitor, about forty-five years of age, has long been regarded as a coming man in the City of London, but this venture into the ownership of weekly newspapers came as a surprise. His business interests hitherto have been almost exclusively connected with paper mills; for, besides controlling the Inveresk Paper Company, he is chairman of several similar concerns. Mr Harrison is at present abroad, but is expected to return to England next week, when a further statement regarding the purchase of the Ellerman group may be expected.

Newspaper Activity.

It may be that London is on the eve of a great outburst of activity in the newspaper world; for indications of developments are not lacking. All the evening newspapers are to be considerably improved and enlarged without delay, while there are rumours that a newcomer may be added to the three now running. Evening papers are now to appear with a page of pictures like the morning papers, a new departure so far as the evening press is concerned, while many other new features are promised.

The River Clyde.

The steamer, River Clyde, which figured so prominently in the ever-memorable landing at Gallipoli, has changed both her name and her flag. It will be recalled that she was run ashore on the Peninsula, and that the troops reached the fire-swept beach from a pontoon bridge run out from the vessel's side. She is now the Angela, and flies the Spanish flag. A few days since she put into Plymouth with 6,000 tons of American coal aboard. Though she has returned to peaceful pursuits, it is not intended that the ship's war exploits shall be forgotten. In the saloon are two large pictures descriptive of the Angela as she was and the part she played in the great Gallipoli adventure.

Bananas as Food.

Five boys and girls from ten to fifteen years old have been awarded bank notes for £100 for essays on the advantages of bananas as a food, the prize having been offered by fruit importers. Of 42,000 competitors one of the best efforts was considered to be that of an Ulster girl of thirteen, Kathleen M. Corbett, a pupil of Portadown College. Just over £1,233 has been awarded in cash, and all the winners of first and second prizes have been invited to luncheon at the Hotel Cecil today. Dr. Alexander Irvine, the novelist, was one of the judges.

At the annual meeting of the Londonderry Employment Committee yesterday, Mr. H. A. Agnew, Secretary, reported that the total amount of unemployment benefit paid in the Londonderry area since the 23rd October 1925, was £143,374 17s. 2d.

NEW INDIAN JUDGE.

The King has approved the appointment of Mr. Mirza Zaffar Ali to be a Puisne Judge of the High Court of Judicature, at Lahore, in succession to Mr. Justice Walter Aubin le Rossignol, whose retirement will take effect from the 4th of October, 1926.

BID FOR COAL PEACE.

MR. BALDWIN'S NEW OFFER TO MINERS.

A NATIONAL TRIBUNAL

TO REVIEW LOCAL AGREEMENTS WITH OWNERS.

MR. BALDWIN has made another bid for peace in the coal industry. Yesterday, with members of his Cabinet, he met representatives of the miners, and at the end of six hours' discussion handed them a letter.

This set out that the coal-owners had declined most emphatically to make a national agreement with the Miners' Federation, but that they had assured the Prime Minister that in making district agreements they were ready to observe the main principles which a national agreement would secure.

Mr. Baldwin promised the miners that if they faced economic facts, and there was a general resumption of work through provisional settlements, arrived at by local negotiation, the Government would establish a National Arbitration Tribunal.

It would be the function of this Tribunal to review matters in local settlements which formerly were covered by national agreements, and the Tribunal's awards would have the force of law.

The Miners' Executive will meet next Monday to consider the Prime Minister's proposal, and probably there will be a delegate conference later in the week. Mr. A. J. Cook declared last night that they were no nearer peace than they were on May 1st, and that the miners never would accept district agreements voluntarily.

TEXT OF LETTER.

GOVERNMENT'S SINCERE DESIRE FOR PEACE.

The conference between the representatives of the Government and the Miners' Federation lasted six and a half hours. The miners' representatives were Mr. Herbert Smith, Mr. Richardson, Mr. T. Richards and Mr. A. J. Cook. The following official statement was issued from 10 Downing street last night.

The Prime Minister met the President of the Mining Association at 9.30 o'clock this morning. Later on the Prime Minister and his colleagues met the four officials of the Miners' Federation at 10 Downing street, and discussions continued until 7 p.m. At the close of the proceedings the Prime Minister handed to the miners' representatives the following letter:—

10 Downing street, Whitehall, S.W. 1.
17th September, 1926.

The Secretary, Miners' Federation of Great Britain.

SIR,—On the 3rd September you wrote to us that you desired a conference with the coal-owners in the presence of representatives of the Government, in order to seek a settlement of the present dispute, and you stated that you were prepared to enter into a discussion on the basis of a "reduction in labour costs to meet the immediate needs of the industry."

After full consideration, we decided that this offer constituted a basis sufficient to enable us to approach the Mining Association and to invite them to attend such a conference as you desired. But the Mining Association have now declined in the most emphatic manner to enter into any discussion with your Federation on the subject of hours and wages, or to make a national agreement with them.

MAIN PRINCIPLES.

It is evidently not within the power of His Majesty's Government to bring about a conference. However, the Mining Association have declared that the coal-owners in all districts are willing to observe the main principles that a national agreement would be designed to secure. A satisfactory settlement should combine district arrangements with national supervision.

If the miners are at length ready to face the economic facts of the industry and restart work on provisional district settlements, His Majesty's Government are prepared to secure by legislation that these principles are properly applied by means of a national appeal tribunal. We, therefore, lay before you in broad outline in the enclosed memorandum what we are prepared to do, and the limits within which we find ourselves able to act

If your members are prepared to resume work on the basis of district settlements, subject to the security afforded by these conditions, and when work has been generally resumed, we shall submit these proposals to Parliament in the form of a bill.

We feel it necessary, however, to say that this offer has been made by us out of a sincere desire to arrive at an early settlement, and the Government will naturally expect to receive the views of your Executive without delay.

Yours faithfully,
(Signed) STANLEY BALDWIN.

MEMORANDUM.

THE PROPOSED TRIBUNAL.

1—As soon as there has been a general resumption of work through provisional settlements, arrived at by local negotiations, the Government will pass an Act of Parliament setting up a National Arbitration Tribunal, unless the earlier conclusion of a national agreement renders it unnecessary.

2—Either party to any provisional settlement which provides for working more than the old hours may refer to the Tribunal for review any matter dealt with by such settlement, being a matter of a kind which up to July, 1925, was customarily dealt with by national settlements.

3—The Tribunal should confirm or modify a provisional settlement in respect of the matter referred to it, and as from the date fixed by the Tribunal every man affected by the award, and employed in any pit which works more than the old hours, will be entitled by law to receive wages in accordance with the decision.

MAN OF MANY PARTS.

QUALIFICATIONS OF MINERS' SOLICITOR.

At Swadlincote Police Court yesterday three miners who had been sentenced to two months' imprisonment for violence asked for bail, as they had appealed. The appellants came from Birmingham Jail in the custody of warders, having served a few days of their sentence.

The clerk to the Court pointed out that there was no solicitor making the application, when Major David Graham Pole, Labour candidate for the South Derbyshire Division, who had only come to stand as bail, rose and said that he was a solicitor in the High Court, a solicitor in the Privy Council, and had appeared before the Supreme Courts in Scotland. In addition, he was a Notary Public, and was a retired major in His Majesty's Army.

The statement came as a surprise, the Court being unaware of the legal qualifications of Major Pole, who had only recently come to South Derbyshire. The major added that he himself would make the application.

Bail was granted, Major Pole being one of the sureties for the appellants. He afterwards received an ovation at a miners' demonstration.

COAL TRAFFIC ON RAILWAYS.

During the week ended September 11th the London and North-Eastern Railway carried 43,668 tons of British coal from the Nottinghamshire, Derbyshire, and North Wales coalfields.

COAL FOR KINGSTOWN.

The second cargo of coal for Kingstown since the beginning of the strike arrived yesterday, when the ss. Sisto, from Germany, discharged a consignment for a local merchant.

THE IRRECONCILABLE.

MR. COOK'S VIEW ON THE OFFER.

Interviewed late last night, Mr. Cook said: "With regard to the Government's position, the miners are no nearer peace to-day than they were on the 1st of May. The miners will never voluntarily accept district settlement. If we are to have peace in the coalfields, it can only be obtained by a national agreement."

Speaking at Greenwich last night, Mr. Cook made a brief reference to the conference with the Government, and said that they were no nearer a settlement now than they were the first day. Unless the position changed, unless the terms put forward by the coal-owners were changed very considerably, unless there were national negotiations and a national agreement, then they were a long way from a settlement of the dispute. The passing of the Eight-Hour Bill was the greatest obstacle to a settlement of the dispute.

AN ULTIMATUM.

SOMERSET PIT MAY BE CLOSED.

The Newbury colliery, Coleford, Somerset, will be permanently closed down if the majority of the four hundred employés do not signify their willingness to return to work on the new terms posted. These are an eight-hour day and 30 per cent. on the standard wages instead of 35 per cent.

The manager stated yesterday that the ultimatum would expire on Monday. Up to the present no men have handed in their names as requested. This is the third Somerset pit which, it has been stated, will not be re-opened. The Somerset owners yesterday were unanimous for district settlements.

MINERS' PLANS.

EXECUTIVE TO MEET NEXT MONDAY.

At their headquarters, after the conference, the miners' officials decided to summon a meeting of the full Executive of the Federation for next Monday, to decide on the terms of a reply to the proposals of the Government.

It is understood that there are a number of controversial points on which the miners' leaders will probably desire further information, and they may seek another interview with the Prime Minister.

When all possible information is obtained the Executive will, it is expected, call a national delegate conference.

INTIMIDATION.

LONDON MAN'S DANGEROUS SPEECH.

At Clay Cross, Derbyshire, yesterday, Maurice Clement Pike, of Myddleton Gardens, Winchmore Hill, London, an electrical engineer, and Tarini Prasad Sinba, an Indian, described as a journalist, of Great George street, Westminster, were charged with offences against the Emergency Act Regulations.

The case against Pike was that he made a speech at a local hippodrome with the object of compelling miners to abstain from working at Clay Cross Colliery. It was alleged, that he said: "If there are any miners at work in this district, fetch them out, if not by fair means, then by foul."

The accused, who pleaded guilty and undertook to make no further speeches for three months, was fined £2, or three months' imprisonment.

The allegation against Sinba was that he made a speech at Alfreton, likely to cause disaffections among the civil population. The defence contended that no definite charge was brought against accused at the time, and the case was adjourned.

A fine of £10, or three months' imprisonment, was imposed upon Bertie Wall for endeavouring to prevent miners working at South Normanton.

STEEL CARTEL PLANS.

NEGOTIATIONS HELD UP BY BELGIAN "NO."

PARIS, Friday.

It has not proved possible for negotiations for a proposed international steel cartel to reach a conclusion to-day. Representatives of the Belgian iron and steel industry have found it impossible to give their consent to the proposals which have been laid before them here by delegates of other countries. The Belgians have decided to refer these proposals to their colleagues.

No representative of the British steel industry has taken part in these negotiations.

Before the Belgian delegates proceeded to Paris it was understood that they would press for an increase in the quota of production which the scheme for the international steel cartel proposes to allot to them.—(Reuter.)

GERMAN COAL DUMP AFIRE.

COLOGNE, Friday.

A number of coal pit-head dumps and slag heaps belonging to French mining companies are burning with unusual intensity. All vegetation in the vicinity has been destroyed either by the smoke or fumes.

So many of these dumps are burning in the neighbourhood of the mining villages of Sulzbach, Altenwald and Huhnerfeld as to create the impression that they are isolated in a sea of flames.

NEGOTIATIONS AT ICHANG.

YANG SEN AND A FIGHT TO A FINISH.

CHINESE OBJECT TO BRITISH FORCE.

IRISH TIMES FOREIGN SERVICE.
FROM OUR OWN CORRESPONDENT.
PEKING, Friday.

Admiral Sinclair, Commander-in-Chief of the British naval forces in China, is conferring with the Chinese General's (Yang Sen) delegates at Ichang, for the release of the British merchantmen seized at Wanhsien, but no result is yet reported. He is supported by a reinforced "Mosquito" Fleet, which, it is stated, is determined to finish the destruction of Wanhsien in the event of the Chinese General's refusal to release the British merchant ships.

The Peking Foreign Office has again protested to the British Legation against the further employment of force, fearing that a massacre of the foreigners assembled at Chungking awaiting rescue may result.

Four merchantmen, with an American escort, have reached Chungking, for the purpose of taking off the foreigners there.

The American gunboat, Pigeon, is reported to have come under the fire of the Cantonese shore batteries near Hankow. Apparently there was a heavy bombardment, the American gunboat replying vigorously with machine guns.

Dispatches received here report a big battle between Cantonese troops and Marshal Sun Chuan Fang's troops, at Wusueh, 100 miles down the Yangtse from Hankow, and 24 miles above Kiukiang. Marshal Sun Chuan Fang's troops are reported to have got the worst of the battle, and are said to be retreating.

The siege of Wuchow is continuing.

The Cantonese commander has allowed one foreigner to leave Wuchow, in order to obtain food for his comrades, English and American.

Eighty-four cars filled with Cantonese troops have reached the Northern Hupeh border, 630 miles from Peking.

THREAT OF FIGHT TO A FINISH.

SHANGHAI, Friday.

A message by a Japanese news agency from Peking states that General Yang Sen has informed the Chinese Foreign Office that his troops and the people of Szechuan are resolved to fight to the last ditch if there is a second expedition sent to Wanhsien, and that preparations are now being made against such an expedition.—(Reuter.)

CHINESE FIRE ON FRENCH GUNBOAT.

PEKING, Friday.

The Southern Battery, near Hankow, fired on the French gunboat Balny on Tuesday last, the Balny returning the fire with her seventy-fives.

The vernacular Press reports that the Shanisi Governor, Yen Hsi-Shan, has accepted the surrender of three divisions and two brigades of Feng Yu Hsiang's former Army.—(Reuter.)

REINFORCEMENTS FOR WU PEI-FU.

FROM "THE TIMES" CORRESPONDENT.
PEKING, Friday.

Reinforcements are gradually reaching Wu Pei-fu, who is organising an offensive against Hankow and Hangyang. He recently executed General Huang, Touchan, as responsible for the traffic block of the railway.

The foreigners besieged in Wuchang are able to secure food, but the Chinese are not so well off. The Southerners are still unable to break down the resistance of the 5,000 Northerners inside the town, and only desultory attacks are now being made.

No news has been received from Ichang in regard to the Wanhsien negotiations. Agitators in various parts are making the most of the affair, and are feverishly endeavouring to persuade the people to intesify the boycott against Great Britain. The people, as a whole, are as tired of agitators and boycotts as they are of the militarists, and would be thankful if all could be silenced permanently.

A general idea of the feeling may be gathered from a remark of a former Premier, who said last night, when asked when the civil wars would cease: "When the foreign Powers can get together to demand it." That seems to be the sentiment of the commercial classes, who ardently hope for what they dare not ask.—(Per Press Association Copyright.)

CANADIAN CRISIS.

THE GOVERNMENT TO RESIGN.

TORONTO, Friday.

After a brief consultation with some of his colleagues, Mr. Meighan issued a statement to-day that the Government would resign immediately. A Cabinet meeting will be held on Monday, the earliest date on which members of the Government can be in Ottawa. The President of the Dominion Conservative Association is communicating with members in regard to the advisability of holding a national convention to consider the position of the party.—(*Times* telegram, per Press Association, Copyright.)

THE NICARAGUAN REVOLUTION.

PROPOSED CONFERENCE.

MANAGUA, Friday.

With a view to a peaceful settlement of the revolution in Nicaragua, invitations have been sent to the leaders of the Liberal and Conservative Parties to attend a conference, probably on board an American gunboat at Corinto.—(Reuter.)

ZEPPELINS TO AMERICA.

GERMANS' AMBITIOUS SCHEME.

IRISH TIMES FOREIGN SERVICE.
FROM OUR OWN CORRESPONDENT.
BUCHAREST, Friday.

Plans for a big Zeppelin airship passenger service from Germany to America, *via* the North Pole, and other adventurous aerial expeditions, are outlined here by Dr. Hugh Eckener, chief of the Zeppelin works.

Dr. Eckener is touring the German communities in Rumania in furtherance of a scheme to obtain subscriptions from all German-speaking people for the purpose of building a new and bigger Zeppelin than any yet constructed.

He hopes that with the new airship the constructors will be able to prove the practicability of a Zeppelin passenger service from Hamburg to New York, and from Hamburg to San Francisco, *via* the North Pole, and also carry out expeditions to the heart of Africa and Asia. He asks Germans in Central Europe to contribute eighty thousand pounds to "this Germanic enterprise," the remainder of the amount necessary to build the ship having been already raised in Germany.

After his tour through Rumania Dr. Eckener will tour Austria for the same purpose.

A RECTOR'S DEATH.

VERDICT OF TEMPORARY INSANITY.

A verdict of suicide during temporary insanity was returned at the resumed inquest yesterday at North Staffordshire Infirmary, Stoke-on-Trent, on the body of the Rev. John Alexander Smith, Rector of Grindon, who, on August 12, was found shot in a bedroom of the rectory. At the same time Miss Hannah Austin, housekeeper at the rectory, was found mortally wounded. An open verdict was returned at the inquest on her last Saturday.

A constable stated yesterday that he found the rector unconscious, with bullet wounds in the head and a seven-chambered revolver, containing six spent cartridges, by his side.

John Walters, schoolmaster, Grindon, said that the rector had been greatly depressed since his wife's death last February, and once he said that he had started out to drown himself.

Medical evidence was to the effect that the rector had suffered from severe depression and insomnia; he told the doctor that he had a desire to smash things.

The house surgeon at the infirmary said that the wounds were not sufficient to cause death, and he thought that the rector fell and fractured the base of his skull.

DAGGER THROUGH A WINDOW.

INCIDENT AT BRITISH EMBASSY IN TOKIO.

WOULD-BE ASSASSIN AT LARGE.

TOKIO, Friday.

British and Japanese officials continue to preserve the strictest reticence in regard to the "dagger incident" that occurred yesterday in the course of a luncheon at the British Embassy given in honour of the visit to Japan of the Swedish Crown Prince and Princess. It is learned, however, that the authentic story is as follows:—

Sir John Tilley's son, who was present at the lunch, saw a man's face peering round the shutter through the open window, immediately behind where the Swedish Crown Princess was seated between the British and Belgian Ambassadors. The face was momentarily withdrawn, but at the next moment Mr. Tilley saw a man preparing to throw a dagger, whereupon the Ambassador's son leapt forward, intercepting the missile, which struck him, but fortunately hit his cigarette case, which saved his life.

Although the police were patrolling the Embassy compound at the time, the would-be assassin, who was wearing foreign clothes, but is believed to be Japanese, made good his escape.

Considerable mystery surrounds the episode, since it took place in broad daylight, without the police seeing the miscreant. Moreover, it is uncertain who was intended to be the victim. The missile proved to be one of the Ambassador's Brazilian daggers, which was missing from the drawingroom on the previous day.

Despite this unpleasant incident, the Princess and the other guests remained calm, lunch continuing as though nothing unusual had occurred.—(Reuter.)

RUSSIA'S GRAIN EXPORTS

THE EFFECT OF HIGH PRICES.

IRISH TIMES FOREIGN SERVICE.
FROM OUR OWN CORRESPONDENT.
RIGA, Friday.

The prospects of increasing exports of Russian grain abroad this year are still occupying columns of space in the Moscow nespapers. M. Louis Dreyfuss, the big French grain dealer, who until the revolution, controlled 70 per cent. of Russia's grain exports, is reported to be in Leningrad. Baltic grain dealers declare that he has signed an agreement with the Bolshevik Commissarriat of Trade, which permits him to buy and export grain from Russia, dividing the profits equally with the Soviet Government. Even with this arrangement, local dealers do not expect the exports of Russian grain will influence world prices, because the cost of collecting and transporting grain within Russia is much too high to permit of profitable export.

The Moscow *Economic Life* reports that during July and August, the Soviet Grain Trust collected 548,000 tons of grain in Russia against 806,000 a year ago. Of the present amount, 70,000 tons are rye, 380,000 are wheat, and the remainder oats, etc. Practically all this was collected from Trans-Caucasia and the Lower Volga districts, private buyers handling 20 per cent. of the entire amount.

Further buying in the Middle Volga districts, and also in Southern Russia, is proceeding slowly, because the increased prices are prohibiting buying for export. The *Economic Life* reports that private buyers are handling 70 per cent. of the marketed grain in these districts, and urges the Government to take severe measures against them in order to force down the prices and thus permit export.

MEXICAN EX-PRESIDENT MISSING.

REPORTED MURDER BY INDIANS.

MEXICO CITY, Friday.

Nothing has been heard of General Obregon, ex-President of Mexico, since he was reported to have been on the train which was "held up" on Wednesday by Yaqui Indians. A rumour is now current that General Obregon has been killed. The Government has issued no statement, except that troops are being rushed to the State of Sonora with instructions to exterminate the Yaquis unless they surrender.—(Reuter.)

FRENCH ECONOMIES.

GOVERNMENT'S PROPOSED REFORMS.

PARIS, Friday.

The sweeping judicial and administrative reforms carried out by the French Government by means of decrees have naturally aroused protests in certain quarters. At this morning's Ministerial Council it was decided that there could be no question of delaying the application of the reforms until Parliament met, as such a step would be contrary to the Law of August 3, which gives the Government the right to act by decree.

The Council was again occupied with the consideration of various reforms, the object of which is the reduction of expenditure. The Minister of Public Works has decided to divide the 530 French posts into three categories—namely, national, departmental, and communal. Of these only the national will continue to be managed by the State, the other two classes being administered by local bodies. An indication that the magnificent, but slow-working, French canal system does not respond to all modern needs is given in the decision to abandon certain of the less used waterways. The postal system will also be reorganised, the country being divided up into 17 districts, instead of 90 departments.

The Cabinet has confirmed its previous decisions, and has resolved to submit to the Chamber the proposals with regard to the conjunction of Economy Laws, which have been put into force, or which remain to be put into force, as soon as the Chamber meets again. The Government will make each of these proposals a question of confidence, refusing an interpellation before they come up for discussion.—(Reuter.)

LIBERAL CLUB-MAN'S RESIGNATION.

SEVERE ATTACK ON MR. LLOYD GEORGE.

Mr. R. P. Croom Johnson, barrister, of London and Bristol, has resigned his membership of the Eighty Club, London, and of the Bristol Liberal Club, after many years' membership.

He states in a letter that after the war he remained a Liberal, although Mr. Lloyd George's approximation to the ideals of another political party by some of his land proposals strained the loyalty of many Liberals almost to the breaking point. There followed the wicked folly of the general strike. The record of Mr. Lloyd George in that disaster, with its atmosphere of defeatism, irresolution and "trimming," made it necessary for him to reconsider his position.

Mr. Croom Johnson adds: "It was with relief that I found the accredited leaders of the party quit themselves with strength and patriotism, and refuse to act with him any longer. Unfortunately, the party, as a whole, has not followed that plain and unequivocal lead induced either by specious explanations, or by fear of seeing this political 'will of the wisp' on antagonistic platforms, or else with an eye on the funds, of whose origin we are in ignorance. The party has refused to cut cut the cancer, and, apparently, still hopes for some miracle by which it may be healed.

"After some twenty-five years' active service with the party on the platform and elsewhere, and after having been on several occasions invited to take a larger and more prominent part in the great national fight which the Liberal Party formerly waged, I can find no satisfaction, either as a democrat or as an Englishman, in working with those who cry 'unity' when there is no unity and whose sole policy appears to be that of Micawber. Please take my name off your books."

FRANCE AND GERMANY.

M. BRIAND AND DR. STRESEMANN IN AGREEMENT.

A SATISFACTORY INTERVIEW.

TEXT OF OFFICIAL STATEMENT.

M. BRIAND and Dr. Stresemann have reconciled their points of view, and if their conclusions are approved by their Governments, their conversations will be resumed.

Both statesmen discussed "every cause of friction between France and Germany," and their agreement was so complete that both express full satisfaction.

M. Briand pays a special tribute to Dr. Stresemann's sincerity, and Dr. Stresemann declares that "the moment calls for European solidarity, and the kernel of this is complete Franco-German solidarity."

THE LUNCH AT THORY.

A GOOD RESULT.

GENEVA, Friday.

Various attempts of motorists and others to discover the place of rendezvous of M. Briand and Dr. Stresemann resulted in failure. Both were expected back at five o'clock, and crowds of journalists were waiting for them at the French and German hotels, but it was almost an hour later when, smiling gaily, they returned separately to their hotels.

The German Foreign Secretary entered without saying a word.

M. Briand only told anxious inquirers where he had been, and then retired for a short rest. It is known that they lunched at the beautiful little village of Thory, just across the French frontier.

TEXT OF THE COMMUNIQUE.

The following official *communiqué* has been issued:—

"M. Briand, the French Minister of Foreign Affairs, and Dr. Stresemann, the German Foreign Minister, lunched together in the village of Thory. There they had a conversation lasting several hours, which was of the most cordial nature.

"In the course of this conversation they examined, one by one, all the problems likely to interest the two countries, and they endeavoured together to ascertain the best means of solving them in the interests of France and Germany and in the spirit of the agreement to which they have signed.

"The two Ministers reconciled their points of view generally regarding the solutions. Both of them reserved the right to refer to their Governments.

"If their points of view are approved by their Governments they will resume their conversations in order to attain the desirable results."

M. BRIAND SATISFIED.

In the course of an interview, M. Briand said that he was unable to say exactly what problems were discussed, as such publication might prove harmful. In his humorous way he exclaimed: "This will be known as the mystery of Thory." However, he revealed the fact that to-day's meeting was only a continuation of conversations with Dr. Stresemann, at which every cause of friction between France and Germany was discussed.

Declaring that he was satisfied with the result to-day, he paid a tribute to the loyalty of Dr. Stresemann, which had never been at fault. He believed that their talks would be efficacious for European peace.

In conclusion, he said that during the lunch Mont Blanc unveiled itself in all the beauty of its eternal snows, but, added M. Briand, with a laugh, "the snows were no purer than the intentions of Dr. Stresemann and myself."

DR. STRESEMANN AND SOLIDARITY.

Dr. Stresemann has granted an interview to Reuter's Correspondent. What the chief German delegate had to communicate was almost a paraphrase of the *communiqué*. The talk, he said, was one of the most extensive character, and the most cordial possible. Complete agreement had been reached on the conception of the whole situation, and there was a joint resolve to find the best means of settling the whole Franco-German situation. Dr. Stresemann concluded by remarking, "The moment calls for European solidarity, and the kernel of this is complete Franco-German solidarity."—(Reuter.)

ATLANTIC FLIGHT.

START MAY BE MADE TO-DAY.

WESTBURY (NEW YORK), Friday.

When Captain Fonck left the flying field last night he said that Monday would probably be the first day on which the flight to Paris could be considered, owing to severe storms having been reported over the route selected for the attempt. A change of weather conditions might, however, still make the flight possible at dawn on Saturday.

Captain Fonck's aeroplane was left out on its run-way to-night.—(Reuter.)

LEAGUE OF NATIONS.

QUESTION OF EXPENDITURE.

GENEVA, Friday.

The Budget Committee of the League of Nations Assembly to-day discussed the resolution of Sir Ramoswami Ayyar, of India, in favour of keeping maximum limit of expenditure in view in the future.

Sir Joseph Cook, Australia, considered that the resolution should be as elastic as possible. It should not only work as a preventative to burdens being increased, but should be capable of being eased in case that should be justified by circumstances.

The resolutions were agreed to.

As regards Germany's contribution to the expenditure of the League, a sum was announced, it being added that Germany had already agreed thereto.

In reply to Sir Joseph Cook, Sir Eric Drummond said that Brazil's withdrawal from the League would not come into effect until the expiry of two years.

THE LEAGUE COUNCIL.

CONCOCTED BEHIND THE SCENES.

The Times observes in a leading article:—Few will be found to claim that the new Council of the League of Nations, the first to be elected after the introduction of an elaborate reorganisation scheme, is an improvement upon the old. It is larger and less manageable, and contains two or three States whose claims are far from obvious. It bears the stamp of having been concocted behind the scenes at Geneva rather than freely elected by an Assembly supposed to be representative of world-opinion.

China probably owes her election at the present moment entirely to the skilful and assiduous advocacy of her claim by Mr. Chu. There is no such happy hunting ground for the versatile or persuasive negotiator as Geneva, and seats on the Council are coming to be regarded as prizes for dexterous diplomatists.

FASCISTS TEAR DOWN FRENCH FLAG.

ITALIAN GOVERNMENT ORDERS INQUIRY.

ROME, Friday.

An incident is reported to have taken place recently at Venice. A number of Fascists entered a shop and pulled down the French flag.

The Italian Government has ordered that an inquiry shall be held into the occurrence without delay, and that proceedings shall be taken against the offenders.

MR. KIPLING'S NEW BOOK.

"DEBITS AND CREDITS."

SOME FINE TALES OF THE WAR.

(SPECIALLY REVIEWED.)

A new book by Mr. Kipling still sets pulses a-tingle throughout the English-speaking world. To the younger generation he is already a tradition; but those of us who are not too young, and not too old, still can remember the time when his books were anticipated by a vast public with the same spirit of curious excitement with which the announcement of a new Gilbert and Sullivan opera was greeted forty years ago. Even in those far-off days the critics used to declare that Kipling was not the man that he had been; but the people insisted on buying his books, which the youth of the late 'nineties learnt by heart, and Rudyard Kipling became the inspiration of the race of Britons which was called upon in the dark days of August, 1914, to shed the red blood that he had helped to fire in their veins for England's sake.

It would be too much to expect, now that Mr. Kipling is growing old, that he could recapture the full vigour of his surging springtime, or that a generation that is being reared on jazz and moving pictures would devour his new book with the eager zest of its parents. How we all revelled in "Plain Tales from the Hills" and "Stalky and Co."! But those days have gone. The modern boy is bored by Stalky; the Jungle Books are "for kids"; even "Kim" is old-fashioned, and the "Barrack-Room Ballads" are "doggerel." So much for Kipling; and now for "Doug and Mary"!

A REVIVAL.

"Debits and Credits" may disappoint our undiscerning youth, but those whose memories stretch back beyond the war will find much to charm and much to delight them in its pages. Here and there one catches a glimpse of the old Kipling, that *beau sabreur* of literature who fought his way into the heart of Britain. Here and there one rediscovers the flashing phrase, the sudden thrust of deadly satire, the baring of the human soul by the scalpel of Kipling's genius, and, above all, one finds that he still can tell a tale consummately well. In this respect Mr. Kipling has no living peer. With Maupassant, Poe, and, perhaps, Turgenieff, he shares the mastery of the short story, and "Debits and Credits" contain at least one that will rank with his best.

The book is a collection of odds and ends. Once more Stalky, Beetle and MacTurk pursue their inimitable course through the Army Class at Westward Ho! Once more they tantalise poor King and make their confessions to the "Padre Sahib"; but, somehow, although "Propagation of Knowledge" in some ways probably is as good a Stalky story as any that has been written, there is something unreal about the resurrection of our old friends. The war's four years have made a gap that cannot be bridged even by the pen of a Kipling. "Stalky and Co." may be the same as ever; but Mr. Kipling has changed, his readers have changed, and the smile of welcome which we give the doughty trio lacks the warmth of olden days.

WAR STORIES.

Mr. Kipling is at his best in the stories that are concerned with the war. "Sea Constables" is delightful. It relates some of the experiences of four amateur sailors in the R.N.V.R., and is full of the real Kipling touch.

> "But Jarrott's a Quaker—has been for generations. Why does he go to war?" said Maddingham.
>
> "If it comes to that," Portson said, "why do any of us?"
>
> "Jarrott's a mine-sweeper," Winchmore replied with deep feeling. "The Quaker religion (I'm not a Quaker, but I'm much more religious than any of you chaps give me credit for) has decided that mine-sweeping is life-saving. Consequently"—he dwelt a little on the word—"the profession is crowded with Quakers—specially off Scarborough. See? Owin' to the purity of their lives, they 'all go to Heaven when they die. Roll, Jordan. Roll.'"

Jarrott, by the way, was an eminent banker, aged 54, and was "only a lootenant-commander."

Other stories are nearly, if not quite, as good. A queer strain of religious feeling runs through them, not the old Mithraic creed of the "Barrack-Room Ballads," the religion of the Roman legionary, but something more subtle and less severe. One finds it in all his Masonic stories—tales of the lodge of "Faith and Works 5837," which catered for soldiers home on leave from the trenches, in flagrant contravention of the strict canons of Masonic law! One finds it particularly in "The Gardener," the tense little story with which the volume ends, and one recognises a new and less rugged Kipling, a man whose mind has mellowed in the testing time of war.

THE VERSES.

The verses—which include some first-rate adaptations of Horace—come as a kind of epilogue to the story, epitomising their morals and sending the reader away with the lilt of a song in his ears. One of them, "Alnaschar and the Oxen," is in the author's happiest mood.

"There's a pasture in a valley where the hanging woods divide,
And a herd lies down and ruminates in peace;
Where the pheasant rules the nooning and the owl the twilight tide,
And the war cries of our world die out and cease.
Here I cast away the burden that each weary week-day brings,
And, delivered from the shadows I pursue,
On peaceful, postless Sabbaths I consider Weighty Things—
Such as Sussex cattle feeding in the dew.

"There's a valley under oakwood, where a man may dream his dream,
In the milky breath of cattle laid at ease,
Till the moon o'ertops the alders, and her image chills the stream,
And the river mist runs silver round their knees!
Now the footpaths fade and vanish; now the ferny clumps deceive;
Now the hedgerow-folk possess their fields anew;
Now the herd is lost in darkness, and I bless them as I leave,
My Sussex cattle feeding in the dew."

"THE JANEITES."

And then there is the unmistakably Kiplingesque flavour about the verses that follow that astonishing story about the Jane Austen Club in an Artillery mess, told by a former waiter, shell-shocked, now a hairdresser, "somewhere at the back of Ebury street," with "the shoulders, ribs, and loins of the old Mark '14 Royal Garrison Artillery and the eyes of a bewildered retriever"—

"Jane went to Paradise:
That was only fair.
Good Sir Walter met her first,
And led her up the stair.
Henry and Tobias
And Miguel of Spain
Stood with Shakespeare at the top
To welcome Jane."

On her arrival the Archangels offered Jane anything that she wanted, whereupon she asked for "love." There was an instant search through the Celestial regions, and everybody was asked in turn, "Who loved Jane?"

"In a private limbo,
Where none had thought to look,
Sat a Hampshire gentleman
Reading of a book.
It was called 'Persuasion,'
And it told the plain
Story of the love between
Him and Jane.

"He had heard the question
Circle Heaven through—
Closed the book and answered:
'I did—and do!'
Quietly, but speedily
(As Captain Wentworth moved),
Entered into Paradise
The man Jane loved."

Who else could have written those lines? The book teems with such snatches from the past; and yet they are fresh from the crucible of genius, holding out the promise that the spark is still aflame, and that the new Kipling has something yet to give the world of which the old need not feel ashamed.

EMPIRE DELEGATION.

SYDNEY, Friday.

The Empire Parliamentary Delegation arrived here to-day and was warmly welcomed by representatives of the Federal and State Governments. The Lord Mayor tendered its members a civic welcome, the ceremony being attended by many citizens prominent in New South Wales and in the whole Commonwealth.

The keynote of the speeches was the expression of the hope that the visit would strengthen the understanding between the different parts of the Empire.

The Marquis of Salisbury, who heads the delegation, and Mr. Arthur Henderson, M.P., acknowledged the welcome.—(Reuter.)

LATE NEWS

CABINET AND COAL.

THE GOVERNMENT'S NEW PROPOSALS.

The Labour Correspondent of *The Times* writes:—As a result of conferences at Downing street, first with the President of the Mining Association and afterwards with the four officials of the Miners' Federation, which began at 9.30 a.m. yesterday and concluded at 7 p.m., the Government has made new proposals for the settlement of the dispute in the mining industry. They differ from the Government's former proposals, in that they only require acceptance by the Miners' Federation. They are designed to end the latest phase of the deadlock which resulted from the refusal of the Mining Association to enter into negotiations with the Miners' Federation and the Association's insistence on purely district settlements.

In the course of his conversation with the Prime Minister, Mr. Evan Williams gave him the assurance that "the coalowners in all districts are willing to observe the main principles that a national agreement would be designed to secure." The Government made use of this assurance in submitting its own proposals later to the miners. The assurance takes the place in the new plan of the suggested agreement on general principles, which was the first stage of the scheme of settlement sponsored by the Coal Committee of the Cabinet last week.

After setting out Mr. Baldwin's letter, the Correspondent proceeds:—It will be observed, in the first place, that the new proposals do not provide for a national agreement, or for national negotiations. It was obviously useless to return to a suggestion which the Government could not enforce in opposition to the final refusal of the owners to meet the miners in national negotiations. The alternative procedure of a National Arbitration Tribunal will bring the parties together, at least to review the conditions as to wages and hours in any district from which there is an appeal. The composition of the Tribunal is not stated. Apart from the bodies set up under the Trades Boards Acts, there is only one instance of statutory Wages Boards, and that occurs in the railway industry. Owing to the wholly different circumstances a close analogy with the Railway Wages Boards is not possible, and it may not be considered necessary to find room on the new Tribunal for the representatives of coal-users. There will certainly be an independent chairman.

The district settlements are to be provisional. They will determine the conditions on which work will be resumed in each area, but it does not follow that a resumption of work will commit either party to final acceptance of the terms pending an appeal to the National Tribunal. It appears that the function of the Tribunal will be to act as a coordinating body, and to prevent departures on too great a scale from some actual or ideal standard of conditions. But the Tribunal will have jurisdiction only when there is agreement upon a working day of more than seven hours. It is important to note that the Tribunal would have power to modify a provisional local settlement, and, further, that the memorandum deals with settlements arrived at by "local" negotiations. Local agreements might conceivably be something other than district agreements. There are local agreements—pit agreements—at present in the Midland areas, and it would appear at first sight that the acceptance of the terms offered by individual pits would entitle the men at one pit to take a test case before the Tribunal, provided, of course, that the resumption of work was general.

What the miners will say in reply to the proposals will be decided next week. The Executive Committee of the Federation has been summoned to meet on Monday, and it is almost certain that a delegate conference will meet a few days later, unless, indeed, the Committee is prepared to accept responsibility for rejecting what may very well prove the last attempt at mediation.

SUCCESSFUL CHANNEL SWIM.

ENGLISHMAN SETS UP A "RECORD."

Norman Leslie Derham, of Southend, has successfully swum the English Channel. He left Cape Grisnez on Thursday night, and landed at St. Margaret's Bay, Dover, at 10.58 yesterday morning, completing the swim in thirteen hours, fifty-five minutes, which constitutes an English "record."

The weather was fairly clear, and a large number of people assembled on the beach to welcome Derham ashore.

"MYSTERY SWIMMER" FAILS.

After swimming for thirteen hours, Miss Marriott, known as Miss Jane Darwin, "the mystery swimmer," had to abandon her second attempt to conquer the Channel yesterday owing to bad weather. She returned to Dover.

HURRICANE AT TURK'S ISLAND.

MUCH DAMAGE TO PROPERTY.

Lloyd's Agent at Turk's Island cables, under Thursday's date:—"A hurricane passed over here, doing considerable damage to property, on September 16. No lives were lost, and there were no vessels in port. Assistance urgently required."

The Turk and Caicos Island form a group annexed to the Colony of Jamaica, from which they are distant about 450 miles. Although little heard of, Turk's Island is an important station on the cable route between this country and the British West Indies.

THE MAMMOTH LINER.

MAY BE BUILT IN BELFAST.

Considerable interest has been aroused in Belfast by the report that the White Star Line contemplates the placing of an order with Messrs. Harland and Wolff, Ltd., for the construction of a sixty-two thousand ton liner, which will be the largest vessel in the world, and seventeen thousand tons larger than the great White Star liner Olympic.

The President of the International Mercantile Marine Company, Mr. Franklin, in the "Ocean Ferry," the monthly journal published by the owners of the White Star Line, states:—"We are now making all our plans for the future development of the White Star Line, and with this object in view we are proceeding with the preparation of plans and specifications for a new mammoth steamer of the Majestic-Olympic class."

The report goes on to state that the new ship will embody the desirable features of the Majestic, as well as of the Olympic. She will be built at Messrs. Harland and Wolff's Belfast yard, and will have a speed of about 25 knots.

Her construction is expected to take three and a half years, and while no definite decision has been arrived at regarding her name, Oceanic is under consideration. No preparations have yet been made in the Belfast yards of Messrs. Harland and Wolff, Ltd., for laying down a vessel of such huge dimensions, and, so far as can be ascertained, no order has yet been definitely placed. In any event, the vessel could not be proceeded with until there is a plentiful supply of steel available, and this is not possible until the coal strike is settled. There has been frequent rumours, however, that such a vessel would be built at Belfast, and as it would afford about three years' employment to a large number of men, the placing of an order during the present period of depression in the shipbuilding industry would be greatly welcomed.

COTTON STANDARDS.

THE LONDON CONFERENCE.

A conference between representatives of the European cotton exchanges will be held in London on Wednesday, when a considered statement on the subject of cotton standards of staple denomination will be forwarded to the United States Government. This is in line with the promise made at a conference held in London last month, when the meeting considered the suggestion impracticable, and of no help to the cotton trade in general.

The British Delegation will comprise representatives of the Master Spinners' Federation, the Liverpool Cotton Association and the Manchester Cotton Association.

THE BETTING ACT

OPERATIVE IN FREE STATE ON 1ST NOVEMBER.

HOW TAX WILL BE LEVIED.

TWO WAYS IN WHICH PAYMENTS CAN BE MADE.

THE Betting Act will come into force in the Irish Free State on November 1st, and from that date "every bet on any event of any kind" made with a bookmaker will be liable to duty.

The Act legalises cash betting in registered bookmakers' offices as well as on racecourses, but street betting remains illegal.

Under the law the bookmaker is the person responsible for payment of the duty. Duty will be chargeable at the rate of 2½ per cent. of the amount staked in the case of bets which fulfil all of the following conditions:—

(a) The event must be either a horse-race or a greyhound coursing contest, or one or more courses during a greyhound coursing contest.

(b) The bet must be entered into at the place where the horse-race or the greyhound coursing takes place.

(c) The bet must be entered into during the meeting of which the horse-race or the greyhound coursing is an item.

HOW DUTY WILL BE PAID.

In the case of every other bet made with a bookmaker duty will be chargeable at the rate of 5 per cent. of the amount staked. The duty in all cases must be paid either by the user of official tax-paid betting sheets or on the basis of returns furnished to the Revenue Commissioners.

Where a bet has become void for any other reason other than the mutual consent of the parties thereto, or where the amount of the debt is not likely to be collected by the bookmaker, or where the bet has been transferred or "laid off" from one bookmaker to another, the Revenue Commissioners are empowered to make a remission of duty.

As regards "place betting," the amount staked will be taxed at exactly the same rate as if the horse were backed to win. The regulations cover bets made in respect of a series of contingencies (to cover two or three horses taking part in a race). If, for instance, £1 is put on as a treble on horses "A. B. and C.," the amount taxable will be the £1. In the case where a bet is made on one event, and a condition is made that the whole or part of any "money to come" is to be staked on another event, or events, the amount of the stakes placed on every such subsequent event will be regarded as taxable.

THE BRITISH TAX.

SUGGESTED BOYCOTT OF MEETINGS.

The following resolution was carried unanimously yesterday at a meeting of the Northern Owners and Trainers' Association, held at Ayr:—"With a view to the postponement of the betting tax, a vote should be taken of all owners and trainers in the country, asking them if they are in favour of refraining from entering horses after 1st November, or bringing other pressure to bear on the Government, or taking whatever steps the Association consider necessary."

Mr. J. A. Campbell, the well-known Scottish owner, was Chairman, and the resolution was moved by Mr. George Picken and seconded by Mr. John McGuigan, of Ayr, and unanimously agreed to.

The view was expressed that if the tax were proceeded with, in three years racing would be finished. It was also agreed to co-operate with the Newmarket Federation and the Owners and Trainers' Association of England.

BUTTER AND CHEESE EXPORTS.

THE IMPORTANCE OF GRADING.

Messrs. W. Weddel and Co., Ltd., in their 32nd annual review of the imported dairy produce trade, state that having regard to the unusual prosperity which the trade in exporting countries has enjoyed during the past ten years, it is not surprising to observe the strong tendency that has manifested itself in practically every country of production towards the establishment of official control over the production and grading of butter and cheese.

In Ireland, Canada, Australia, and the Argentine this movement towards stricter official control over production and grading has made considerable progress within the past year or two. The lines upon which the various countries are working differ from each other, according to local conditions, but the object aimed at is more or less the same, namely, to do everything possible to produce an article of uniformly excellent quality.

HAYLEY MORRISS' VOTE.

QUESTION OF DEPRIVATION.

At East Grinstead Revising Barrister's Court, yesterday, application was made to have the name of Hayley Morriss struck off the Parliamentary Register. The Liberal agent quoted that section of the law, which said that no one should be entitled to a vote who had been convicted of treason or felony, or had been sentenced to a term of imprisonment exceeding twelve months. The application was supported by both the Conservative and the Labour agents.

The Revising Barrister, Mr. Hugh McIlveen, took the view that in order to be disqualified a voter must have been convicted of treason or felony, and that the case of Morriss convicted of a misdeameanour, did not apply.

The application was disallowed, and Morriss's name is retained on the Register of the East Grinstead Constituency.

LIVERPOOL BOY IN BRAY ACCIDENT.

A boy named Frederick Woodfield, a visitor from Liverpool, was knocked down by a laundry van yesterday afternoon in the Strand road, Bray. He sustained a broken leg, and, after being attended by Dr. Roantree, was removed to the Adelaide Hospital, Dublin.

DOCTORS AND THEIR FEES.

THE CASE OF HOSPITAL PATIENTS.

CONTENTION OF CLARE BOARD OF HEALTH.

A sworn inquiry was held on Wednesday last in the Raheen (Scariff) District Hospital by Dr. J. D. Clinch, Medical Inspector, Local Government Department, into a matter which is of interest to doctors in charge of public hospitals maintained out of the local rates. In the County Clare, patients admitted to such hospitals must pay for their maintenance if their valuation exceeds a certain figure. In addition, they must, according to the contention of the doctors, pay fees for the treatment that they receive. The argument of the medical profession is that the admission of such patients to public hospitals deprives the doctors in charge and also deprives private practitioners of the chance of private practice. On the other hand, members of the Clare Board of Health hold that the doctors in charge of public hospitals are paid salaries for the treatment of all patients admitted, and that they cannot augment those salaries by charging fees for treatment given in a public institution.

There were two specific cases before the Inspector. In the first, Patrick Cody, of Ballybrohan, O'Gonnelloe, near Killaloe, alleged that Dr. T. E. O'Connor, medical officer of Raheen District Hospital, demanded five guineas for the treatment of his daughter in the hospital, and when that was not paid he told her she could leave. In the second, Mrs. Mary McNamara, Clonusker, Scariff, alleged that Dr. O'Connor demanded seven guineas from her before treating her in the hospital for a sore leg, and that as she could not afford to pay that sum she had to go home without treatment.

The inquiry was attended by a number of Limerick and Clare doctors.

Mr. James F. Gaffney, solicitor, Limerick, appeared for Dr. O'Connor; Mr. John McM. Lynch, solicitor, for the Clare Board of Health.

Evidence in support of their allegations was given by the two complainants, who were cross-examined by Mr. Gaffney as to their private means. Mr. Cody admitted that he had gone security in the bank for his sister for a sum of £350; that he had a farm of 39 acres; hired out a threshing machine, and owned a number of cows, calves, yearlings and pigs. Mrs. McNamara admitted that she had sold a farm for £860 recently. Both said that they would have been willing to pay a fee to the doctor, but they objected to the amount asked as excessive.

Dr. O'Connor denied that treatment had been refused in either case because of non-payment of his fees. The patients had left the hospital without consulting him.

Three nurses and a patient gave evidence that while she was in hospital Miss Delia Cody had expressed herself as being happy and well treated. She was not ordered out of the hospital by the doctor, but left of her own accord. The woman, Mrs. McNamara, was never admitted as a patient. She left when she was told by the doctor that at least a month's stay in the hospital would be necessary for an effective cure.

Mr. J. S. Gaffney said that Dr. O'Connor had the support of the whole profession in the county in his stand in this matter of fees. The doctors objected in the strongest possible manner to have people who were well able to pay getting an entry into hospital in the guise of poor people, and so exploiting the doctors. It was never intended that a doctor should be debarred from charging fees to such patients simply because they were admitted to an hospital of which he had charge.

The Inspector gave it as his personal opinion that a doctor could accept a fee from a patient liable for the payment of full maintenance charges.

Giving evidence as to the procedure in the County Hospital of which he has charge, Dr. J. B. MacClancy stated that as a rule a "paying patient" called at his private house, and they agreed as to terms prior to his admission to hospital. Those terms were quite independent of the maintenance charges payable to the Board of Health.

"It is very seldom," added the witness, "that I get a fee in a medical case. I may get a fee in a surgical case, but I rarely get one in a medical case; but I hold that I am entitled to get a fee from paying patients both in medical and surgical cases."

Dr. R. Counihan, medical officer of the Kilrush District Hospital, gave evidence as to the practice there. It was similar to that followed by Dr. O'Connor.

Mr. Denis Healy, as a member of the Board of Health, said that, in his opinion, doctors in charge of a public hospital could not charge any fee. The doctors had never yet brought a test case, and there was nothing in the regulations to show that they should get a fee from any class of patient.

The Inspector said that there was nothing in the regulations against their getting fees from paying patients.

A vote of thanks to the Inspector closed the proceedings.

BETTER TIMES COMING.

NORTHERN MINISTER OPTIMISTIC.

Mr. Andrews, Northern Labour Minister, visited Londonderry yesterday and had a conference with the Harbour Commissioners with regard to their big scheme of harbour extension.

Addressing a meeting of the local Employment Committee and prominent citizens later, Mr. Andrews said that the Government were committed to grants of £80,000, part of which would be used in connection with very desirable improvements to the harbour and part to the Banagher water schemes. He congratulated Londonderry on its improved position in regard to the considerable decrease in unemployment, which was due to the improvement in the shirt and collar industry and the building trade. It was rather a blot on the community that there were 126 disabled ex-Service men unemployed. A special effort should be made to get them work.

The Northern Government had decided to establish a farm training school at Richhills, County Armagh, for those young men in Northern Ireland who desired to go to the Dominions to carve out a career for themselves. There was no compulsion in the scheme, the object of which was to give them a thorough training in farm pursuits, and to see that at the same time they were well fed and built up physically, so that they would pass the authorities and get a chance of making good in the Dominions. He knew that the scheme had been criticised, but that did not worry him. It was a matter for satisfaction that by this effort they would be bringing within the reach of many people here the opportunity of making good in life to a greater extent than the prospects here offered at present.

THE UNEMPLOYED.

The Northern Government's policy as regards the industrial classes had been characterised by some as harsh and inconsiderate, while others accused them of being too sympathetic. The Government tried to balance between those two points of view. If money was to be given out in a reckless way, or compassionate grants were distributed broadcast to persons not fulfilling the conditions, it would create a bad spirit among the community and lead to disaster. People were not going to be permitted to use the Unemployment Benefit Fund for the purpose of living in idleness if work could be procured for them.

Personally he was sanguine enough to feel that the worst was over, and that better times lay ahead. The coal strike had retarded progress. When the strike was settled the industrial position in Northern Ireland would improve, and employers would be encouraged to embark on new enterprises, and to develop untapped resources, which undoubtedly exist in Northern Ireland, and in that way to gradually make that a better and happier land.

A special dance is announced to take place at Clery's Ballroom on Thursday next in aid of the Drumcollogher Disaster Fund. The entire proceeds will go to the fund, as the ballroom, the organising services and the Adelaide Orpheus Band are being given free.

VIGILANCE NEEDED.

UNLICENSED CINEMA HALLS.

The Kildare County Council yesterday passed a resolution asking the Civic Guards to exercise vigilance in seeing that cinema performances were not carried on in unlicensed premises.

The Secretary said that he had reason to know that the Civic Guards were now taking active steps in the matter all over the county.

Mr. Conlan, T.D., said that it would appear that there were cinema performances held in buildings that were not licensed at all.

Mr. Coonan said that in dozens of places he knew of no licence had been obtained. He had known of a cinema performance to be held in a hay loft. Another dangerous practice, common in rural districts, was the holding of dances in old, discarded rooms, where an outbreak of fire would have disastrous results.

THE BANISHED MONKEY.

FROM DUBLIN HOTEL TO "ZOO" CAGE.

The Dublin "Zoo" has been doing very well in the way of additions to its numbers lately. There are now a greater number of types represented in most of the departments than has been the case for many years. As well as two large donations recently received, there has been a fairly steady increase in the stock through smaller gifts and purchases. A mongoose arrived two days ago, a civet cat yesterday, and a monkey was expected to arrive from a hotel in Dublin, where, doubtless, its possessor was finding it made him feel rather an unpopular visitor.

The banded monitor, which was amongst Sir Robert Woods's gifts of last month to the Gardens, is stated by its keeper to be "doing fine," but it has eaten nothing since its arrival, as far as anyone can tell. This, however, is not considered a matter to worry about in the reptile house, where they are very abstemious as regards food. They make up for some of the other departments, where shameless gormandising is the rule; the sea-lions are not satisfied with anything under half a dozen meals a day, totalling between fifty and sixty pounds weight of fish.

The Teguexin lizard is shedding its skin at present, seeming rather morose in consequence, and hides as much of itself as possible under its straw bed.

The lion-house had a full house yesterday to see the midday meal served round and hear the usual uproarious thanks offered up. The tiger cubs, "Rupert" and "Joy," have not yet got into the way of making such a racket at feeding time as the older hands, and curb their impatience by giving quite an entertainment in the way of a game of leap frog, or the tiger equivalent for it, to pass the time until their turn comes.

The monkey-house had its usual large crowd of admirers, who seem always to give as much amusement to the monkeys as they are given in return, and the monkeys, certainly, get any profit that is going. They are not too easy to please, either, with gifts; some of them can make people who think peanuts ought to be a pleasant surprise look rather small. The chimpanzee, "Gordon," is quite an epicure about his regular menu, has strawberry jam with his pudding, and the jam has to be home-made, too. His next door neighbour, "Balbriggan," had no use for visitors yesterday, and was aloft in his upstairs sitting-room, making great play with the bit of old sacking that seems to be his favourite toy.

THE EMIGRANT SHIP.

A SOUTH TIPPERARY PROTEST.

Mr. W. L. Ryan (Chairman), at the South Tipperary County Council, said that he wished to make reference to the tremendous loss to the nation that was entailed by the steady stream of emigration. While at a little wayside station near Drumcollogher the other day he saw a weeping crowd of young boys and girls waiting for a train, and on inquiring what was the cause received the answer, "America again." There must be something wrong when that awful drain upon the nation's life-blood went on.

If legislators and would-be legislators would cease their wrangling, abandon the policy of dilly-dally, and concentrate upon practical work for the benefit of the country, much might be done to alleviate the deplorable conditions that prevailed at present.

The Council was specially called to consider the Cashel Rate Collectorship. After some discussion the following resolution was passed:—"The Minister having already accorded his sanction to Mr. Thomas Carew's appointment on the same terms as to poundage and security as to heretofore, the Council fail to see any reason for withholding such sanction; the more so as Mr. Carew is prepared to give further and better security than heretofore; and we request the Minister to adhere to his original decision."

The Minister for Local Government sanctioned the plans prepared by Mr. T. P. Meade, C.E., County Surveyor, for the new County Council offices on the site of the old R.I.C. barracks, Clonmel, and the Finance Committee was authorised to have the work, which will cost about £7,000, carried out.

SOUTH AFRICAN FLAG BILL.

GENERAL HERTZOG AND A REFERENDUM.

GENERAL SMUTS NOT SATISFIED.

CAPE TOWN, Friday.

Before his departure for England to attend the Imperial Conference, General Hertzog, the Premier, handed the following farewell message to Reuter's Correspondent:—"There is no message I am more desirous of leaving behind for my country than that of peace and goodwill, and in order to contribute to that peace and goodwill I desire to take this opportunity of giving publicity to the intention of the Government in connection with the Flag Bill. That Bill, according to the decision of the Government, so far as it concerns the flag, should not, when passed by Parliament, come into operation unless and until it has been clearly ascertained by a proper referendum of the registered voters that such is the will of the people."

General Hertzog expressed the hope that, in view of this announcement, the existing feeling of acrimony in connection with the flag question will cease, and that all party or sectional strife will be converted into a more patriotic contest, imbued by a national spirit. This, he says, cannot fail to happen if it is realised that there is no room for domination by any section, and that the minds of the people cannot be allowed to be obsessed by it indefinitely, without leading to a bitterness of strife which must endanger the national wellbeing.

The Government, continues General Hertzog, is, therefore, prepared to leave the ultimate decision to the people. The Government has the fullest confidence that such a definite judgment by the people upon the question as to whether they will have a flag, as approved by Parliament, or no South African national flag at all, will be loyally respected and submitted to by the country, irrespective of party feeling.

GENERAL HERTZOG SAILS FOR ENGLAND.

With an entire absence of ceremony, which was quite in keeping with the solemn nature of one part of the South African Prime Minister's dual mission, General Hertzog, and other members of the South African delegation to the Imperial Conference, sailed to-day, on board the Balmoral Castle, accompanied by a selected party of ex-Servicemen, who will be present at the unveiling of the South African War Memorial at Delville Wood.

A large crowd assembled on the docks, and as the Balmoral Castle drew away from the crowded quayside the "Springbok" war-cry rang out across the water. Thus began the solemn pilgrimage to the battlefields, which the whole country will follow with the keenest interest.

"NOT A SQUARE DEAL," SAYS GENERAL SMUTS.

KIMBERLEY, Friday.

Criticising General Hertzog's farewell speech on September 6th, preliminary to leaving South Africa for the Imperial Conference, General Smuts strenuously opposed the proposals to pass the Flag Bill through Parliament and afterwards to submit to a referendum the decision whether it should operate. General Smuts declared that this was "loading the dice," "not a square deal," "and a dishonest attempt to wriggle out of the mess in which the Flag Bill had landed the pact between Labour and the Nationalists.—(Reuter.)

COLLAPSED AT WORK.

FATAL SEIZURE AFTER TWO YEARS' UNEMPLOYMENT.

Resuming work that day after two years' unemployment, William Woods (37), of 52 Westbourne street, Belfast, in the employment of the Belfast Corporation, collapsed on Monday last while working at the boulevards which are at present being erected on the Lagan, in the Ormeau Park vicinity, and died within a short time.

At the inquest yesterday the evidence given by two workmates was to the effect that they had been engaged digging alongside the deceased man, and saw him fall forward on his face suddenly.

The Coroner, in announcing a verdict of "death from heart failure," sympathised deeply with the widow of the deceased man.

Mr. John Archer, Town Solicitor, representing the Corporation, said that on behalf of the entire Corporation he sympathised with the widow in her bereavement. It was especially touching that on the first day of employment after two years' unemployment the deceased should be stricken down in such a manner.

PITCHED INTO DITCH.

GIRL'S INJURIES: MOTORIST'S MORAL LIABILITY.

Patrick Ralph, Newhill, Thurles, was brought up at Urlingford (Co. Kilkenny) District Court yesterday, charged with having, on the 28th ult., driven a motor car at a speed dangerous to the public at Warrenstown, and knocked down and seriously injured a girl named Mary B. Holohan, aged eight years.

Superintendent O'Donovan said that as the child was out of danger he would proceed only on the ordinary charge of dangerous driving.

Richard Fannning gave evidence that after he had moved in on the footpath to get out of the way of the defendant's car he saw a girl being pitched into a ditch. Going over to the ditch he found the girl lying on her back unconscious, with one of her legs broken and with a cut over the right eye. The brakes of the car seemed to have been applied, but the car did not pull up until close on seventy yards from where the accident occurred. The driver came back and drove the child to a doctor.

Edward Murphy corroborated, and added that the car was going quickly at the time.

Mr. Braddle, the owner of the car, stated that the driver had been in his employment for over a year. He never travelled at more than 25 or 30 miles per hour. At the time of the accident the car was travelling at 15 miles an hour. After the accident had occurred the car travelled about thirty yards. The car had to go some distance to turn, as it could not turn where the accident occurred.

The defendant stated that after he had passed a hay cart on the road he saw a girl rush out from a gateway. The road was about 18 feet wide at this point. He swerved the car, but the front of the mudguard struck the child.

The Justice (Mr. McCann) said that he was satisfied that the defendant was not travelling recklessly, and he felt it his duty to dismiss the summons. There was no legal liability on the defendant to do anything, but he thought, taking all the circumstances of the case into account, that there was something of a moral liability on defendant to help this little girl.

THE HOUSING PROBLEM.

BELFAST UNIONS' SCHEME TO MEET DEMAND.

The housing problem came up for discussion at a conference held in Belfast, at which various trade unions and kindred organisations were represented. Eventually a sub-committee was appointed to draft a scheme of housing for submission to the Government of Northern Ireland, and also to the Corporation. The scheme is intended to meet the demand for houses, and also to afford a means of absorption of labour.

The chairman of the conference was Mr. D. R. Boal (President of the Woodworkers' District Committee), and the bodies represented included the Building Trades' Federation, the Northern Ireland Labour Party, the Belfast Trades and Labour Council, and the Bricklayers' and Plasterers' Trade Unions.

In the course of the discussion delegates criticised the attitude of the authorities, and emphasised that there was a splendid opportunity now to provide houses which the people desired, and also at the same time give employment to large numbers of men.

FOOT-AND-MOUTH DISEASE.

PRECAUTIONS IN KENT.

The Ministry of Agriculture states that, in the course of inquiries into the origin of the outbreak of foot-and-mouth disease which occurred at Stanford, Kent, on the 15th inst., it was ascertained by the Ministry's inspectors that a calf from the infected premises had been sold in the Ashford market on the previous day. This animal was traced to its destination at Benenden, Kent, on the 16th inst., where it was found to be affected.

Meantime arrangements had been set on foot to trace the destination of stock exposed at Ashford market, and, on information available, an Order has been issued as a measure of precaution defining as an infected area for the purposes of movement restrictions the remainder of the County of Kent and the Petty Sessional Divisions of Rye, Hastings, Battle, Burwash and Frant, with the Boroughs of Hastings, Bexhill and Rye, in the County of Sussex.

TELLING A GUARD'S "FORTUNE."

WOMAN PROSECUTED AT LISDOONVARNA.

Having had his hand "read," and a bright future foretold for him by means of cards, Guard McKenna laid the hand of the law on the shoulder of Mrs. Katherine Cusack at Lisdoonvarna, and showed his scepticism by serving her with a summons, in which she was accused of having "pretended and professed to tell fortunes." This summons was heard by Acting District Justice Conroy at the local Court on Thursday.

According to his evidence, the Guard encountered Mrs. Cusack and asked her if she "read" fortunes. She countered by inquiring where he came from, how long he had been stopping in Lisdoonvarna, and when he was going away. He replied and repeated his question, and Mrs. Cusack admitted that she did "read" fortunes. She then called for his hand and she read it. "In fact," said the Guard, "she 'read' both my hands, and then took a pack of cards out of a bag and 'read' the cards for me."

Mrs. Cusack informed the Guard that her fee was 5s., and she gave him 15s. change for a £1 note, which he tendered. He then told her that he was a Civic Guard in plain clothes, and that he could assure her that she would be summoned as soon as he reported the case.

Mrs. Cusack informed the Guard that her defended, said that she had come to Lisdoonvarna for her health. As regards fortune-telling, she had always given her ser- had assisted at *fêtes* in various places. She vices free in the cause of charity, and she was patronised by Guards, schoolteachers, and clergymen. When she met the guard he asked her if she told fortunes, and she said that she would prefer not to see anybody now. He said that he had been recommended by a visitor at the Atlantic Hotel, and he eventually persuaded her. She had read the hands of officers during the Black-and-Tan *régime*, but, if she had thought it was an offence against the law, she would not have done it, and she had not read any hand since she had seen the guard's.

On Mrs. Cusack giving an undertaking to discontinue the practice, the Justice discharged her with a caution.

"And what about the guard's five shillings?" asked Superintendent Brady. "He might like to have that back."

"I'll give that back with pleasure," said Mrs. Cusack, and she placed it in the guard's hand.

SMUGGLING CHARGES IN DONEGAL.

FINES OF £100.

Heavy fines for the attempted smuggling of wearing material from Derry into the Free State were imposed at Newtowncunningham District Court yesterday by District Justice Walsh.

Henry McNulty, a Ballybofey merchant and a member of the Donegal County Council, was charged with an offence in May last.

The evidence was that the defendant was motoring from Derry. At Carrigans he stated that he had nothing dutiable to declare. Two other occupants made a similar declaration, and the motor car was allowed to proceed. Further on the car was stopped by Customs officers, to whom a similar declaration was made. When the car was searched a lady's coat and two motor cyclists' outfits were discovered concealed behind the front seat cushions, and a box containing a shirt. The cushions on the seats were detachable. The defendant admitted that the shirt was bought in Derry, but said that the other articles were bought in Dublin and had been taken to Derry for the purpose of disposing of them.

Mr. Armstrong, a Dublin witness, gave evidence that some of the articles were purchased there.

Mr. Walsh remarked that the goods were made in England.

Replying to the District Justice, the witness said that he could not, in the circumstances, undersell the Derry market.

The Justice, in imposing the full fine of £110, said that protection had resulted in half a dozen factories springing up in that county, and it was the duty of every public-spirited citizen to assist the Government.

Notice of appeal was lodged.

BOY WITH A MAN'S COAT.

There was a similar prosecution against Thomas Ward, Kerrykeel.

The evidence was that the defendant was accompanied in a motor car to the Customs post by a boy who appeared to be over-dressed. The boy was requested to remove his overcoat, and underneath he was wearing a man's lounge coat and vest. The defendant accepted responsibility and admitted that he intended to bring the trousers on the following day.

Giving evidence, the defendant said that he did not know that the boy was in the car.

The Justice characterised this story as gross perjury. He inflicted a fine of £100.

POSED AS "BONA-FIDES."

CASES AT LUCAN AND ATHBOY.

At Lucan District Court yesterday, District Justice Conner dismissed a summons against Mrs. Mary A. Comisky for a breach of the licensing laws on the 7th ult.

Sergeant Brannigan stated that when he called at 10.40 p.m. he found fifteen or twenty men on the premises, three of whom were not *bona fide* travellers. Mr. Comisky said that he had two friends with him who were arranging a draw for a handball tournament. The third local man told him that he came from Maynooth. This man, whose name was given as Mara, was fined 15s. The others, men named Kane and Byrne, who stated in cross-examination that they were in the bar parlour, were fined 5s. each.

At Athboy District Sessions on Thursday, Joseph Lynch, Castletown, was fined £1 and costs for being on the premises of Mary O'Rourke, Main street, Athboy, during prohibited hours, and for falsely representing himself as a *bona fide* traveller. A summons against the publican was dismissed.

INTERNATIONAL SHEEP-DOG TRIALS.

THE CHAMPIONSHIP.

About 7,000 spectators assembled on Knavesmire, York, yesterday, to witness the final for the international sheep-dog trials. Twelve dogs competed, giving a fairly good account of themselves. The results were as follow:—

1, and champion, "Glen," the property of Mr. Mark Hayton, Otley, with 154 points out of a possible 165.

2, "Meg," with 146 points, belonging to Mr. William Wallace, East Otterburn, who won the championship in 1922.

3, "Lad," belonging to Mr. Bagshaw, Rotherham, with 138 points.

Mr. Bagshaw won the York Challenge Cup with "Sweep."

HARVEST FESTIVAL.

To-morrow (Sunday) and Monday next Harvest Thanksgiving Services will be held at Christ Church, Blackrock. The special preacher will be the Rev. Canon Oswald Scott, Rector of St. Paul's, Belfast. The recitalist on Monday evening will be Mr. Victor Love, Mus.B., A.R.C.O., organist of the Mariners' Church, Kingstown.

The offertories will be devoted to the Sustentation Fund of the parish.

MISSING ITALIAN STEAMER.

OLYMPIC COMMANDER'S STORY.

CREW'S RELUCTANCE TO ABANDON STEAMER.

On arrival at Southampton yesterday afternoon of the Olympic, her commander, Captain W. Marshall, C.B., D.S.O., told a graphic story of her dash to the assistance of the Italian steamer Ellenia.

"We picked up a broadcast message asking for assistance," said Captain Marshall, "and I immediately got into touch with the distressed ship and inquired whether her crew wished to abandon the ship—whether they were in immediate danger, or merely wanted a tow. They replied they were making steady headway, but wanted to be kept in the right direction.

"Eventually the Olympic found the Ellenia, and came abreast of her. She was then well down at the bow, having only about six feet above the waterline, and it was obvious that her forehold and forepeak were flooded.

"In reply to a message transmitted by means of wireless and the International code, the commander of the Ellenia replied, 'We wish to abandon ship,' five minutes later.

"When we were making preparations another message was flashed across: 'We do not wish to abandon ship now.' We noticed, however, that the Ellenia had all her lifeboats swung out ready for lowering, and the men could be seen bustling about in all directions and placing stores and provisions in their boats.

LIFEBOAT SENT OUT.

"In view of the uncertainty displayed by the Ellenia's commander," added Captain Marshall, "I sent one of our lifeboats to the Italian steamer, in the charge of the fourth officer, Mr. John Law, and by this means we were able to definitely ascertain whether the Italians wished to abandon the ship or not, and we found them reluctant to do so.

"As other ships were in the vicinity, including the Laguno and several French fishing vessels, I signalled that the Olympic must proceed on her voyage."

Captain Marshall said that the position of the Ellenia when the Olympic reached her was at the edge of the banks off the Scilly Islands.

GUN ACCIDENT AT A RECTORY.

YOUNG WOMAN FOUND SHOT.

On Thursday morning at 7 o'clock Elizabeth Love (18), in the employment of the Rev. A. W. Brew, rector, of Goleen, County Cork, was found at the rectory suffering from a gunshot wound in the face and head. A single-barrelled shotgun was lying close by the injured girl.

Dr. Neville, who was called, had the girl promptly removed to the District Hospital, Skibbereen, where she lies in a critical condition.

Superintendent Moore, Civic Guard, Skibbereen, visited the rectory and conducted inquiries.

It is believed that the girl was handling the gun, which was on the hallstand, and that it was discharged accidentally.

Last night she was stated to be still in a critical condition.

DAMAGED HACKNEY.

RECKLESS DRIVING CHARGE DISMISSED.

Summoning James Dawe, Phibsborough road, Dublin, at Bray District Court yesterday for driving a motor car recklessly and negligently, James Hughes, hackney car proprietor, Benburb street, Dublin, said that Dawe's motor car struck his right back wheel, drove his car into the wall, and then struck the right front wheel. The motor car went on for 100 yards before pulling up. No warning was given.

The defendant said that his was one of three cars to pass Hughes. He got three-quarters of a length past the complainant's car when he heard a slight noise. He had to pass the other two cars before he pulled into the side of the road, and this accounted for the distance which he covered after he passed Hughes before stopping. The drivers of the other two cars got out and went back to Hughes. Hughes said nothing to him, so he went on. His car was not damaged.

The Justice (Mr. Price) dismissed the case.

MOTOR DRIVERS' LICENCES

A TEST OF EFFICIENCY.

Mr. C. D'Arcy, Secretary of the Irish Automobile Drivers' and Mechanics' Union, writing to us in reference to the proposed alterations in the traffic regulations in the Free State, points out that, while it is proposed to insist on the physical fitness of all drivers of motor vehicles, nothing is proposed with regard to inefficiency in the handling of mechanically-propelled vehicles.

His union, he says, makes it a condition of membership that every applicant for membership must produce a satisfactory certificate of efficiency, and his council urges the authorities to add a clause to the proposed measure calling for a searching driving test on every applicant for a licence. The carrying out of this clause, apart from any medical test, would at once eliminate 50 per cent. of the traffic faults, and help very materially to lessen the deaths due to accidents in which motor cars are concerned.

VANISHING WHITE TROUT.

QUESTION OF NEW CHANNEL FOR BOYNE TRIBUTARY.

At a meeting of the Boyne Fishery Board of Conservators in Navan, a letter was read from the Department of Fisheries relative to the deposit of shingle at the mouth of the river Mattock—a tributary of the Boyne—stating that their engineer reported that he had little doubt that the only satisfactory solution would be to cut a new channel for the Mattock, so that it might discharge into the Boyne. The Department had no funds available out of which a contribution could be made towards the cost of the work, which would require to be met by local contributions, or otherwise.

Mr. Dennis said that, except in floods, the white trout could not get up the Mattock to spawn.

The Chairman said that he had seen them climb places in Connemara and Donegal that they would not believe any fish in creation could get up. This work would be expensive, and "would not be worth it."

Captain Coddington said that the cutting would be about 200 yards, and Major Metge suggested that it would cost between £200 and £300.

Mr. Dennis—Is there not plenty of money in the Fishery Department? The tendency of the Fishery Department, as far as I see, is that they want something for nothing.

Captain Coddington said that the size of the white trout he saw now was only 1½lbs. They saw nothing bigger. Where were the big ones? he wondered.

Mr. Dennis—They are nearly wiped out.

No action was taken.

WIFE'S "WITCHCRAFT BUSINESS."

HUSBAND'S ALLEGATIONS.

A man who complained of his wife's "witchcraft business" appeared to answer a summons for separation on the ground of desertion at Newton Abbot.

In cross-examination, the wife denied that she told fortunes, or spoke to people about witchcraft. When her boy was ill she did not accuse her husband of putting something on the rug, nor did she put salt around his chair.

The defendant stated that when the boy was sick his wife said that he had laid something on the rug to make him ill, and when he went to sit in his chair he found salt around it. One day he left his watch behind, and his wife said that he had placed it near her photograph "to work" on her. He could not understand what she meant.

The defendant added that he objected to the "witchcraft business."

The Bench adjourned the case for a month to see if the parties became reconciled.

A STOCKBROKER'S FRAUD.

SEVERE SENTENCE IN LONDON.

William Chivers Gully (50), stockbroker, was yesterday sentenced at the Old Bailey, London, to five years' penal servitude on charges of fraudulently converting money entrusted to him by clients for the purchase of stocks and shares. The defendant was stated to be the controlling partner in Leeming Brothers, stockbrokers. The firm was "hammered" on the Stock Exchange in 1924, and went into bankruptcy with a deficiency of £155,000.

Gully, in his evidence, stated that Leeming Brothers was crippled financially during the war, and the firm subsequently suffered from the depreciation of stocks and shares which it held. He denied that he had deliberately used either the money or securities of clients for his own or the firm's purposes, although mistakes might have occurred.

Mr. Justice Wright, in passing sentence, said that a stockbroker in the City of London held a high and trusted position. Many clients placed their entire confidence in him, and that confidence was seldom misplaced. But the greater the trust the greater the responsibility. The City, the Stock Exchange and the country held a very high reputation in the world for rectitude and for honest dealing, and when a person charged with those trusts committed a breach of them for his own convenience, he incurred a very grave responsibility.

"I feel," added the judge, "that the reputation of this country, and the high sense of honour which is felt in the City of London, require that when a man has departed from a position of trust there should be some penalty attached to it which would mark the gravity of falling away from the true standard of integrity and honour."

OBITUARY.

SIR MALBY CROFTON, BART.

We regret to announce the death of Sir Malby Crofton, Bart., which took place yesterday at his residence, Longford House, Ballisodare, Co. Sligo. He was the third baronet, and was a Deputy Lieutenant and Justice of the Peace for his county. The late baronet was a well-known figure in the West of Ireland, where he was very popular. He was a staunch supporter of the Church of Ireland, having been for many years an active member of the General Synod, and took a lively interest in all its affairs. He was born in 1857, educated at Oxford, and in 1880 married Louisa, daughter of R. J. Verschoyle, of Tanrego, Co. Sligo. As a landlord Sir Malby Crofton was respected highly in the West. He always was a keen farmer, whose ideas kept abreast of the times, and he did a great deal for agriculture in Connaught. His heir is his only son, Major Malby R. H. Crofton, D.S.O., who had a distinguished war record, having been wounded four times in France and Mesopotamia. The late Sir Malby will be missed greatly in the West. He was one of the few surviving links with the old landed gentry, whose loss will leave a big gap in his native county.

MR. J. B. BARRINGTON.

Mr. John Beatty Barrington died in Dublin on Thursday, after an illness of some duration. He was the youngest son of the late Sir Croker Barrington, Bart., of Glenstal, County Limerick, and brother of the present baronet, Sir Charles Barrington. Until recently Mr. Barrington resided at Ashroe, County Limerick, and for many years he was agent for the Earl of Limerick's estates.

During the European war, Mr. Barrington, who attained the rank of Major, commanded a section of the Anglo-Gallic Ambulance Corps, and a general order of General Gouraud observes that, though 57 years of age, and having undergone a severe operation, "he never failed to set a wonderful example of coolness and devotion in the much exposed sectors, notably in Champagne, 1915, Verdun, 1916, and Les Eparges, February to June, 1917." He was the recipient of several French decorations.

The late Major Barrington was President of the Limerick Branch of the Legion of ex-Service men. During his time he was identified with various local bodies. He was an elected member of the County Council, which position he held for several years up to his retirement; was a member of the old Limerick Board of Guardians, and took a keen interest in the welfare of Barrington's Hospital, which was founded by his ancestors about a century ago.

THE VERY REV. P. GRIFFITH, C.SS.R.

The death is announced of the Very Rev. Patrick Griffith, C.SS.R., at Clonard Monastery, Belfast, which occurred yesterday. He was a native of Queen's Co., and had reached his 82nd year. He was educated at Maynooth College, and was ordained priest in 1870.

After serving on parochial missions for about twelve years, Father Griffith joined the Redemptorist Order. As a member of that Order he took an active part in missionary work in England and Ireland. He was closely associated with the foundation of the Belfast house of the Redemptorist Fathers about thirty years ago. Father Griffith was, in turn, rector of Limerick and Clonard, and for some years he held the responsible position of Provincial. He was sincerely loved and respected by all who had the pleasure of his acquaintance.

MR. JOHN M. BEAUMONT.

Mr. John M. Beaumont, a well-known Ballymena solicitor, died yesterday at his residence, Laureldene, Ballymena. Mr. Beaumont was a younger son of the late Mr. Alexander Beaumont, Ballymena. As a law student he had a distinguished career, taking first place at his preliminary examination and the Law Society's gold medal in his final examination in May, 1901. He took a deep and practical interest in many things, particularly in the public life of the town. In January, 1914, he was elected as a representative of the Market Board upon the Ballymena Urban Council, and he was appointed vice-chairman of the Council in 1920. For the next three years he was elected chairman, and filled that office with marked ability.

THE CHURCH OF IRELAND.

The consecration of St. Catherine's Church, Ahascragh, by the Bishop of Killaloe was an event of outstanding interest, since this is the first of the churches burned during the trouble to be restored. First erected in 1813, and destroyed by fire on the night of July 20, 1922, the church has been completely rebuilt by Messrs. Bolton, of Rathmines, Dublin, after the design of Mr. R. Caulfield Orpen. In its artistic appearance and in the excellence of the workmanship, the structure is thought by many to be superior to the old building. Private munificence has replaced a few of the old memorials.

The Girl Guides of Co. Meath held their initial sports in the Rectory grounds, Kells, recently. Companies from Oldcastle, Kells and Kingscourt were present with their officers, and took part in various contests, for which a cup had been presented. The adjudicator, the Rev. B. Handy, Scoutmaster of Bray Troop, awarded the palm of merit to the Kells Company.

The results of the examination for the medal and prizes presented by the Bishop of Meath are as follow:—Medal and prize, Miss R. Esdale (Rathmolyon); prizes, R. E. Treiner (St. Mary's, Drogheda), Donald Rothwell (Kells), Mary and William Growcock (Rathmolyon).

At Glendermott Rectory recently a deputation of parishioners waited on the Rev. C. and Mrs. Cullimor, to convey to them their good wishes and to present them with a wallet of Treasury notes. Colonel Beresford Ash, D.L., and Dr. Stevenson were the spokesmen of the deputation.

An Old Boys' Association has been formed in connection with the 44th Company, Boys' Brigade (Christ Church, Belfast, Company).

The late Rev. Thomas Jamison spent thirty-eight years in the Parish of Kilmore, Diocese of Down.

The Bishop of Tuam intends to hold a devotional day for the clergy of the United Diocese on Friday, October 8th next.

Canon Raven, Residentiary Canon of Liverpool Cathedral, has been spending his holiday at Glandore Rectory, and acting as *locum tenens*. People travelled long distances for the purpose of hearing this well-known preacher.

At a gift day for Foreign Missions recently held at Killodiernan Rectory (Killaloe Diocese), a sum of £50 was received.

Two beautiful stained glass windows were erected in Glenville Church (Diocese of Cork) recently in memory of the late Lady Hudson-Kinahan. They were dedicated by the Bishop of Cork.

U.S. MARKETS.

SEVERE DECLINES.

(REUTER'S TELEGRAMS.)

NEW YORK, Friday.

Stocks at the opening were firm, but a wave of liquidation broke against the market on the recurrence of fears of an early advance in the Federal Reserve Bank's rediscount rate, which were emphasised by the heavy calling of bank loans and the tightness of money. The reduction in call loans yesterday, with early loans to-day being made at the same figure, had allayed fears of possible credit restrictions. The declines were severe in stocks recently sponsored by pools, and United States Steel Common fell to 143½, the lowest price for six years. Warner Bros.' Pictures "A" declined 11½, Case Threshing Machine 8, and Du Pont 7 points. General Motors, however, rallied from 149¾ to 153 in the final dealings on covering. The market closed weak. Government Bonds irregular; Railroad Bonds easy. The day's sales totalled 2,390,000 shares.

Money on call closed firm at 5 p.c. bid and 5¼ p.c. asked. Business was done during the day at from 4½ to 5 p.c., with the ruling rate 4½ p.c. The last loan was made at 5 p.c. Sterling exchange steady. Silver ⅛c. lower at 61⅛c.

SCOTLAND'S FISHING FLEETS.

YOUNG MEN FIGHTING SHY OF THE SEA.

Nowadays when the ancient mariners of the fishing fleets of Scotland die or retire there is a growing disinclination among many of the younger generation to take their places on the deep, where the stormy winds do blow.

This fact is revealed in the annual report of the Fishery Board of Scotland for 1925, which has been issued in London. It is recorded that of the total of 27,141 fishermen belonging to Scotland last year 3,392 were employed on steam trawlers, 7,596 on steam drifters or liners, 7,376 on motor boats, and 8,777 on sail boats. The total included 6,905 crofter fishermen and 1,040 men only partly engaged in fishing.

In 1924 the total of 27,458 included 7,309 crofter fishermen and 970 men partly engaged. The decrease in the total number last year was attributable, as in the case of the number of vessels, to the sailing and motor fleets, the numbers employed on steam trawlers and drifters showing increases.

This decrease is attributed chiefly to the youth of Scotland fighting shy of the sea.

The fishing industry is more elaborately organised than many imagine, and during the herring season a system of telegraphic intelligence is maintained between the principal landing ports, stating the number of vessels arriving, the average catch, the quality of the fish, the range of prices, the position of the fishing grounds, and the nature of the weather. The telegrams are exhibited at the fish markets. The number sent last year was 3,231 at an estimated cost of £203. This information is of great value to the industry, as it secures a more even distribution of vessels and curing staffs.

Information contained in the message was last year broadcast twice daily from Aberdeen, but only one or two vessels were equipped with receiving sets, and the bulletin was of more value to curers and exporters and others commercially interested. It is, however, anticipated that the equipment of the fleet to take full advantage of the service is only a matter of time.

Poor fishing in certain localities is attributed by some to an increase in the number of seals.

USTOMS DUTY ON GLASS BOTTLES.

REGARDED AS UNFAIR IN CORK.

At the monthly meeting of the Executive ouncil of the Cork Industrial Development ssociation—Mr. P. Crowley presiding—the ecretary reported that, accompanied by Mr. Dennehy, hon. secretary, Cork Typographical Society, he had visited several city rms and investigated cases of unnecessary nports of lithographic and printed matter. le was glad to be in a position to report iat in most cases the directors and managers the firms in question had agreed to confine l orders to be placed in future with Irish rms. Some of the printing establishments isited expressed the opinion that, without ie protective aid of tariffs, it was impossible keep their plant and machinery going or ieir workers continuously employed. There as at present a high percentage of unemloyment in the printing trade. To obviate iis it was the decision of the meeting to ecommend to all city firms the necessity, rom a national and civic point of view, of lacing all their orders for printed and lithoraphic work locally.

The closing down of the Irish Paper Mills Clondalkin and of the Saggart Mills, Co. Dublin, was now beginning to make itself felt, the Secretary said. The loss to the country by the closing of these mills may be estimated at over £1,000,000, as in the year 1925 the imports of paper, cardboard and stationery into *An Saorstat* were valued at that figure. During the same year the disemployed paper mill workers and printers cost the country a very considerable sum of money.

DUTY ON GLASS BOTTLES.

As a result of a report from the Secretary, the Council decided that the incidence of the Customs duties on imported empty glass bottles and empty glass jars was grossly unfair, and that Irish manufacturers of polishes, inks, and other compositions prepared for marketing and contained in glass bottles and jars, were working under unfair conditions of trade. The Irish manufacturers, according to the Customs and Excise Notice No. 73, were liable for duty at the rate of 33 1-3 per cent. *ad valorem* on all imported empty glass bottles and jars. The import of such bottles and jars was necessary, as there was no Saorstat factory manufacturing them. The unfairness of the incidence of the tax will be appreciated when it is pointed out that no Customs duty is leviable on imported glass bottles and jars containing foreign polishes, inks and other non-dutiable contents.

As a result of further discussion, it was decided by the Council to place the facts before the Deputies and Senators of the country, and request them to take immediate steps for the removal of the penalties under which Irish polish and ink manufacturers are working. It was also decided to take up the matter with the Department of Finance and the Revenue Commissioners.

GENERAL SMITH-DORRIEN.

VISIT TO LONDONDERRY.

General Sir Horace Smith-Dorrien, G.C.B., G.C.M.G., D.S.O., arrived in Belfast yesterday morning by the Fleetwood steamer Duke of Connaught. He was met at the boat by Major-General F. F. Ready, C.B., C.S.I., C.M.G., D.S.O., General Officer Commanding the Ulster District, and left the city by the 9.30 a.m. train for Londonderry.

General Smith-Dorrien, who is in his sixty-eighth year, spent his early days as a regimental officer in the Sherwood Foresters (Notts and Derby Regiment), which he joined in 1876, and in which regiment he rose to command. The object of his coming to Ulster is to visit his old regiment, which is now stationed at Londonderry.

DISTRICT COURT AND CIRCUIT COURT RULES.

A special meeting of the Dublin Circuit and District Court Bar Association will be held on Tuesday next, at 1.30 o'clock p.m. in the Solicitors' Room, Metropolitan District Courthouse, Inns quay, Dublin. Its object will be to consider and fully discuss the practice and procedure to be followed by the members of the Association in carrying into effect the new Rules of the District Court, which are to come into operation on the 1st of October next, and to consider further the position with regard to the Draft Circuit Court Rules, and desirable improvements thereof. It is understood that many important matters of interest to the legal profession and the public generally, dealing with the administration of the new legal system, will come before the meeting for discussion.

TIPPERARY "HOLD-UP."

YOUNG MAN SENT FOR TRIAL.

At the Clonmel District Court, a young man named Thomas Shortis, Newcastle, was returned for trial in custody on a charge of having, while armed with a revolver, "held up" two Civic Guards, in October, 1923, and forced them to strip off their tunics, caps and belts, which he took away.

Shortis had been returned for trial already on other charges, including one of escaping from custody.

ATTRACTIONS OF ARCADIA.

Among the chief attractions of Bray are the dancing entertainments at Arcadia. Mr. Macdermott has an eye for the artistic and the picturesque, and he has given it free play in the lay-out and decoration of Arcadia. The title is appropriate, for the dance hall and its surroundings have a touch of Mediterranean colour and brightness. The grounds are arranged in lawn and garden plots, and provision is made for clock golf and other outdoor amusements. The dance hall is beautifully decorated and lighted, and the music is an inducement to all. To-night's innovation will be the "Lucky Spot," and on Saturday night of next week there will be a novelty in connection with the well-known foxtrot, "The Pearl of Malabar," when the prizes will take the form of sets of pearls.

ADMIRALTY ORDER FOR VICKERS.

Messrs. Vickers, Limited, announce that they have received an order from the Admiralty for a large submarine dépôt ship. The main propelling machinery consists of twin screw double-acting internal combustion engines, which will be manufactured at Barrow-in-Furness from British materials under licence from the M.A.N. Company (Maschinenfabrik-Augsburg-Nurnberg A.G.).

GUARD WITH BOTTLE OF STOUT.

SUMMONS AGAINST A PUBLICAN.

At the Waterford District Court yesterday Richard Doherty, a publican, of Mooncoin, was summoned by Inspector Dawson for supplying Guard Farrell, Mooncoin Police Station, with liquor while on duty.

Sergeant McCarthy, Mooncoin, said that he found Guard Farrell in a store off the defendant's licensed premises drinking a bottle of stout on 2nd July at 3.30 p.m.

The defence was that Guard Farrell went into Doherty's yard to inquire about Mrs. Doherty, who was ill in hospital. Doherty and he then began to discuss the raising of a tug of war team for the Guards' sports in Waterford. Doherty said that he then asked the Guard in for a drink and gave him a small bottle of stout.

Mr. Buggy, solicitor, for Doherty, said that the Guards in the country districts did not wear duty armlets, and it was impossible for Doherty to know that the Guard was on duty.

The Justice, stating that the case was a twopenny-halfpenny one, dismissed it. At the same time, publicans should assume Guards to be on duty whether wearing armlets or not, and to supply them with drink on duty was a compulsorily endorsable offence.

The British Board of Trade has appointed a Committee to inquire, in accordance with the Safeguarding of Industries Act, into applications made by the National Leather Goods and Saddlery Manufacturers' Association for the imposition of a duty upon light leather bags and other receptacles, including bags and receptacles of materials made to resemble leather, and by the British Fittings Manufacturerers' Association for the imposition of a duty upon metal frames, locks and clasps for bags and other receptacles.

"A necessity to my youth and success"
says
BEAUTIFUL BETTY BLYTHE
(in a personal interview)

"In all my studio and theatre work, as well as in my daily life, I use Pond's—both the Cold Cream and the Vanishing Cream."

"Sisters under their skin."

"I am very glad of the opportunity to share with my friends who are so kind in coming to see my efforts on the screen the knowledge of the two creams which have made me comfortable for several years as far as my complexion is concerned. You know these two wonderful creams are just as popular over there in the United States as they are here. Many of my women friends use Pond's, and it feels very safe and home-like to find the same good habit over here. What does Mr. Kipling say about being 'sisters under their skin?' Well, this shows the women of America and Great Britain are 'sisters under their skin'—which is just the part that Pond's Cold Cream cleanses."

A lady with ideas.

Miss Betty Blythe is not indebted to her beauty alone for the great position she has reached in the film world. She has ideas of her own and plenty of capacity for carrying them out. And since her appearance on the Coliseum stage, many of us have discovered she has a very charming singing voice as well. Thousands will recall with pleasure her great performance in "Queen of Sheba" and "Chu-Chin-Chow," and also in "She"—the film figuring in the prominent Law Court Case.

Her opinion of the British.

I inquired how she found us as a people now she was moving amongst us as an ordinary being.

"My friends over here have been just too wonderful for words" was the enthusiastic response. "Everybody has been amazingly kind everywhere. You know," she continued impulsively, "I feel it is I who ought to be making a fuss of you people, bless you, for it is you who make our work and careers possible. It's all the wrong way round."

"I use Pond's."

"Well," I reminded her, "you can repay part of your debt by telling us more about your methods of looking after your complexion."

"I have already told you in one word: Pond's. There's an old saying about 'painting the lily.' Some girls, I know, have relied upon paint, and therefore neglected their skins. They have been born with beautiful skins, and just go on, without doing the smallest think to keep them beautiful, so, later, these women have lines and wrinkles and skin-coarseness. Pond's Two Creams, in my opinion, will prevent all that. In all my studio and theatre work, as well as in my daily life, I use Pond's—both the Cold Cream and the Vanishing Cream. How anybody can be in doubt about the cleasing properties of the Cold Cream I can't think—you've only to try it to see the proof. You may wash and wash in soap and water, and after all of it Pond's Cold Cream will still cleanse."

The reviving effect of Pond's Vanishing Cream.

"Soap and water only cleanse the surface," I explained. "Pond's Cold Cream cleanses beneath the surface."

POND'S
VANISHING CREAM
POND'S
COLD CREAM

EVERY SKIN NEEDS THESE TWO CREAMS, USED BY COUNTLESS THOUSANDS OF WOMEN TO MAKE AND KEEP THEIR COMPLEXIONS EXQUISITE.

I questioned Miss Blythe about the Vanis ng Cream.

"I have seen a billboard over here whic says 'Prevents that sinking feeling.' I would say that is what Pond's Vanishing Cream does for a woman. It revives the sinking heart by makin one feel younger, fresher, and bette groomed. When you're tired an weary a touch of the Vanishin Cream has a wonderfully revivin effect—redness and freckles vanish How does it go? 'Age canno wither nor cold winds mar her infinite variety.' I heartily recommend Pond's Creams—they hav been a necessity to my youth a success as an actress."

Before you powder.

Before you powder, smooth on thin film of Pond's Vanishing Crean delicately perfumed with Jacquemino Roses. It gives the surface of you skin a damask smoothness; the powde goes on smoothly and evenly, and stay on longer. This Cream protects as well a beautifies—it guards the skin against exposure.

Every night cleanse with Pond's Cold Cream.

Always at night, or on returning fr a long spell in the open air, cleanse th skin of your face, neck, hands, and arm with this wonderful cream. It will bring t the surface all the impurities which clo the pores. Remove the cream with a sof towel and these impurities will come awa Pond's two creams do **not** promote the growth of hair on the face.

CIVIL SERVICE BILL

ABOUT TO BECOME LAW.

The Civil Service Regulation (Amendment) Bill, which was defeated by the Free State Senate on presentation for second reading on the 17th December, 1925, has now been sent to the Governor-General for signature, the 270 days which the Senate were empowered under Article 38 of the Constitution to hold up the passage of the measure having elapsed.

The bill sought power to confine examinations for certain appointments to the Civil Service to persons of one sex, and this was held to be an unfair discrimination against women, and a breach of the liberties and rights to which they are entitled under Article 3 of the Constitution, which says:—"Every person, without distinction of sex, domiciled in the area of the jurisdiction of Saorstat Eireann . . . . . is a citizen of the Irish Free State (Saorstat Eireann), and shall, within the limits of the jurisdiction . . . . . enjoy the privileges and be subject to the obligations of such citizenship."

It was argued that it was a bad principle to confine examinations to persons of one sex; that it was maintaining the prejudice against women, and that, in fact, the qualifications for the various posts in the Civil Service as they heretofore existed were quite sufficient. It was pointed out also that in the junior Executive posts in the service there are 451 men and only four women, and that the passage of this measure would still further militate against the sex. A plea that the Ministry should schedule the posts unsuitable for women was turned down.

MINISTER'S ATTITUDE.

The attitude taken up by Mr. Blythe, Minister for Finance, was that the measure was necessary, because it was found that certain powers which it was thought that the Civil Service Commissioners had were powers which they actually had not got. In Great Britain women have sat for examinations and have been successful, and yet by a clause in the Sex Disqualification Removal Act power was given to the Civil Service Commissioners to confine an examination to one or other of the sexes as the exigencies of the service may require. That power did not apply in the Free State, and the object of the measure which is now about to become law is to confer that power on the Civil Service Commissioners in the Free State.

The Senate defeated the second reading by 20 votes to 9, and the measure has been held up for the statutory period of 270 days.

DUBLIN GAELIC LEAGUE.

At the Dublin Coiste Ceanntair of the Gaelic League on Thursday night, the Rev. Father Saul, S.J., presiding, the draft programme for the Dublin Feis—to be held in May, 1927—was examined and arranged for issue to the schools of the city and county as early as possible. Some novel competitions, which are found to arouse great interest in the schools, are being introduced this year, such as an inter-school debating competition and a special section for Irish-speaking children.

The work of the new session will be in full swing by October 1st in all the branches throughout the city.

It was decided to hold a public meeting in the Gaelic League Hall, 25 Parnell square, on Thursday, 30th September, to forward the work of the coming session. Prominent workers in the Language Movement will address the meeting.

UNEMPLOYMENT IN THE NORTH-WEST.

IMPROVEMENT IN THE SHIRT TRADE.

At the annual meeting of the Londonderry Local Employment Committee yesterday, the Secretary (Mr. H. A. Agnew) in his annual report stated that the total of unemployed persons in Londonderry on the 13th inst. numbered 2,764, as compared with 3,698 at the corresponding date last year. In Strabane the figures were 339 against 406, and in Limavady 205 against 95, representing a total decrease of 891. The substantial decrease in the number of persons at present unemployed as compared with the figures at the last annual meeting was attributed to the improved state of the shirt and collar trade, and also to an increased amount of building work. The figures in regard to the number of women unemployed would have been substantially less but for the effect which the coal strike had on trade in general.

Approximately 100 houses had been built in Londonderry under the Housing Acts. This work had led to the absorption of a considerable amount of labour. The increase in the number of unemployed at Limavady was due mainly to the closing of Messrs. Adams' factory and the termination of a number of road contracts. In Strabane a substantial improvement had taken place, Messrs. Herdmans, Ltd., having re-engaged nearly all their workers. During the year employment had been found for 2,138 persons in Derry, 124 in Limavady, and 292 in Strabane.

In general the industrial position showed an improvement as compared with a year ago. On the 3rd May last only 446 women were registered as unemployed, this being the lowest figure since 7th July, 1924. Prior to January, 1926 there were considerably more than one thousand women unemployed, and had it not been for the coal strike there was no doubt but the unemployed figures for women would have reached a very low level.

The problem of employment for males, however, still remained acute, as the city still felt the loss sustained by the closing down of the shipyard and Watt's distillery, and as a result there was not enough work for males in Londonderry.

FINANCIAL NEWS AND NOTES.

TONE AND COMMENT.

DUBLIN IRREGULAR.

GUINNESS UNDER BEST.

The week-end market was with few exceptions of negligible dimensions, rendered interesting, however, by a certain amount of irregularity in price movements. Guinness shares opened all buyers, but the trend eventually turned dull as the supply tended to increase, and the price closed under best. Government National Loan as well as British Funds were well supported, and previous prices obtained for Corporation, etc., issues where business was done. Bank of Ireland Stock was better, the recent set-back attracting support. Other issues also closed firm. Dublin Distillers Ord. were dull, and small lots were sold well under last marking. Dundalk Steam Shares were again bid for ineffectually at last price. The particulars of the recent absorption by the British and Irish Company were made known officially the previous night, and do not include the Dundalk and Newry Company, as was at one time rumoured. Marconi Ord. were without support. Among Rails further improvements were established in Great Southern Pre.-Ord. issues. Great Northern Ord. was weaker, the Pref. was dealt in at an advance on last business done level. Among Drapery shares, Cannocks improved substantially. Todd Burns Ord. were again absorbed. Tobacco shares were eagerly inquired for, and Lever Bros. Pref. issues were also on firmer ground. Among Textiles, Courtaulds at one time were firmer in tone and slightly so in price, but subsequently eased again. Bleachers were on offer, and gave way, and Coats were also still on sale. Shell Transports again see-sawed, and fell back after the previous day's rally. British Controlled Oils were the turn harder.

LONDON STEADY.

MINES INTERESTING.

Chief interest in the London Stock Markets yesterday again centred round Mining shares, there being an active business transacted in Tin shares and many South Africans. The former, however, were inclined to ease on a decline in the quotation for the metal, but among the latter Transvaal Developments provided a good feature. Business in the gilt-edged section was on an extremely quiet scale, but prices, as a rule, were much the same as before. A quiet and generally steady tone prevailed in Foreign Government Stocks. Home Rails, although quiet, displayed a slightly firmer appearance, and at the close a few of the leaders were marked to higher levels. A fairly active business was put through in Colonial and Foreign Rails, but the tone was distinctly irregular. A firmer tendency characterised Industrial sections, Cellulose Holdings being a feature on the new capital proposals. Tobaccos also displayed a firmer appearance, but Textiles were somewhat irregular. Among Oils British Controlled were again an active spot, but elsewhere little of interest transpired. Rubbers were quiet and little altered.

INDUSTRIAL REVIEW OF SWEDEN.

The Swedish Economic Review for the third quarter of 1926 states:—A survey of the conditions prevailing during something more than the half of the current year proves that the economic position has developed in a favourable direction. Harvest prospects are promising, and a good average yield is confidently expected. The export of bacon, and still more that of butter, has risen considerably. If this rise continues at the same ratio as recently it will not be long before the pre-war figures are reached. The principal export industries have maintained their position, and an indication of the greater confidence in the industries is afforded by the fact that quotations for the more important industrial securities have steadily risen for some months past. The timber market has been firm, and sellers have been able to maintain their prices well. The export of machinery has also developed in a favourable direction.

THIRTY YEARS WITH ONE COMPANY.

It is announced that upon the completion of thirty years' service—successively as typist, private secretary, company secretary and director—Mrs. A. J. Wilson (nee Ethel M. Sayer) has been appointed managing director of A. J. Wilson and Co., Ltd., the advertisement contractors and printers, of Clerkenwell road.

CANADIAN NORTHERN 5 PER CENT. INCOME DEBENTURES.

It is understood that a settlement of the Canadian Northern Railway dispute has been reached. The 5 p.c. Income Charge Converitible Debentures are to be redeemed at £80 per cent. in the near future. The negotiations between Mr. G. A. Gasten, of the Canadian National Railways, and the Canadian Northern 5 p.c. Income Bonds Protection Committee are nearing completion, and a basis for the settlement of the outstanding questions between the stockholders has been arrived at. While these terms are not official, it is believed that when the offer of the Canadian Government is announced it will be found to be generally correct.

ACTIVE MINING MARKET.

Speculative activity on the Stock Exchange is now almost exclusively confined to the Mining market. The public have tired of Industrials, and are turning their attention in directions where coal troubles can play no part. The rise in the metal has provided them with plenty of material for a gamble in Tin shares. Activities of big financial groups suggest scope for profitable dealing in the South African section. Reports circulated from time to time that South African mining is a dying industry are only true so far as that the life of every mine is shortened by every ton, or ounce, of ore extracted. Twenty years ahead, however, most of the big producers will still be giving a good account of themselves, and that is as far ahead as the average man wishes to look. But the mineral wealth of the country is not exhausted by the areas developed. There is an immense territory still only scratched, or complete virgin ground which opens up big possibilities. It is these new fields that are engaging the attention of the finance houses, and to which the speculator is turning his attention by buying shares in companies which own the undeveloped lands. To gold and platinum possibilities are added opportunities of acquiring interests in diamond discoveries, of which there have been many recently of importance. The speculator hopes for something spectacular, and he may get it; on the other hand, he may suffer disappointment, but that is part of the game. The more solid investor who looks to South Africa as a profitable field for the employment of capital is giving close attention to new industries in the country, of which steel-making is promising to become one of great importance.

RAND SELECTION CORPORATION SHARE OFFER.

A circular to shareholders has been issued from the London office of the Anglo-American Corporation of South Africa, Ltd., giving details of the provisional agreement by which the Corporation undertakes to lend the Rand Selection Corporation up to a sum of £1,000,000 over a period of five years, and to offer the Rand Selection Corporation a 25 per cent. interest in any new business, which offer is to be reciprocal. As consideration the Anglo-American Corporation will have the right to call from the Rand Selection Corporation, Ltd., £1,200,000 of its shares of 5s. each at 17s. 6d. for a period of one year from January 1, 1927. The directors have had under consideration the possibility of giving shareholders an opportunity to participate in the advantages arising from the business described above, and it has been decided to offer part of the Corporation's present holding of Rand Selection shares to shareholders in pro rata proportion to their registered holding on October 2, 1926, at the rate of one Rand Selection share at 16s. 3d. net, ex the September dividend, for every four Anglo-American Corporation shares held.

LONDON MOVEMENTS.

The volume of business transacted in the gilt-edged section yesterday remained on a small scale, but, despite the slackness of interest, quotations were well held. Conversion 3½ p.c. eased to 74, or ⅛ lower.

Foreign Government stocks experienced a quiet and uninteresting session, but a slightly firmer tendency was manifest in several directions. Chinese continued firm, and French Loans and Reconstruction issues were steady at their previous levels. Egyptian Unified firmed up a trifle to 83½, or ¼ better.

RAILS HARDER.

Business continued small in Home Rails, but, despite the slackness of interest, final values were harder in several directions. Midland Ord. gained ½ to 73, and North-Eastern 5 p.c. Pref.-Ord. at 52½ and the Def.-Ord. at 17¾ were ½ and ¼ higher respectively.

Although dealings were on a fairly active scale in Colonial and Foreign Rails, closing quotations showed little change. Grand Trunk Pacific 4 p.c. Debs., however, hardened to 57½, or ½ better, while Entre Rios Ord. at 66 finished a similar amount to the good. United Havana Ord., on the other hand, eased further to 76, or ½ lower, as did B.A. Western to 89, while Canpacs at 172 were a full point easier.

RUBBER SHARES IDLE.

Business continued on an extremely small scale in the Rubber share market yesterday, but, despite the slackness of dealings, a generally steady to firm tone prevailed, though in a few instances closing quotations were a trifle easier. A slightly firmer tendency was manifest in the commodity market, spot rising from 1s. 7⅞d. to 1s. 8d. per lb. October to December hardened the turn from 1s. 8¼d. to 1s. 8⅜d., and January to March, after opening at 1s. 8¾d., were finally quoted at 1s. 9d. April to June realised 1s. 9⅜d., after commencing at 1s. 9¼d. per lb. In the share market Anglo-Malay at 38s. 1½d. were 7½d. to the good, while F.M.S. Planters at 77s. 6d. were marked 1s. 3d. firmer. Tandjong Malim and Tebrau were also both 7½d. firmer to 38s. 1½d. and 63s. 9d. respectively. United Sua Betong, on the other hand, dropped back a trifle to 106s. 3d., or 7½d. lower, while Vallambrosa at 22s. 9d. were 3d. easier. Pegoh at 63s. 1½d. showed a loss of 7½d. on the day.

TEA SHARES QUIET.

The volume of business transacted in the Tea share market yesterday remained on a small scale, but, despite the paucity of interest, a fairly steady tone was manifest in most directions. Amalgamated Estates were a firm market, and at the close a gain of ⅜ was recorded to 42, while Budla Beta at 7 1/16 were finally 1/16 to the good. Doom Dooma at 97s. 7½d. marked an increase of 1s. 7½d. on the day's business. Jetinga Valley hardened to 52s. 6d., or 1s. better, and Jhanzie at 93s. 1½d. were 10½d. firmer. New Dimbula were another firm spot, and here an advance of ⅛ was recorded to 6⅜, while Pabbojan at 7 3/32 were 1/32 higher. Dimbula Valley were finally 1s. 3d. easier, at 76s. 3d., and Western Assam dropped 6d. to 82s. Galaha Ceylon at 52s. 6d. and Imperial at 44s. 4½d. were 6d. and 4½d. lower respectively, while Assam Company at 48s. 3d. were also 4½d. down.

OIL SHARES EASIER.

As on the preceding day, there was little of interest in the Oil Share Market yesterday apart from the continued strength of Apex (Trinidad) Shares, and some further active dealing, coupled with wide fluctuations in the British Controlled issues. Leading counters were quiet, and, although steady for the greater part of the day, became easier towards the end. Following the rally which occurred overnight British Controlled Shares made a satisfactory start yesterday, the Common being quoted at 4s. and the Prefd. at 6s. 9d., or slightly above the overnight's levels. It was not long, however, before they were freely offered again, the Common falling to 3s. 3d. and the Prefd. to 6s. A rally occurred in the Common to 3s. 7½d., and they left off in the "street" at 3s. 6d., the result of the day's business being a decline of 4½d. The Prefd. recovered in the afternoon to 6s. 6d., and they were finally 3d. down at 6s. 4½d. The outstanding feature of the market was the continued strength of Apex (Trinidad) Shares. The persistent demand for these shares has left the market in short supply, the result being that with buyers still coming forward the price is forced up. As a result of the day's business a further advance of 1/32 was recorded at 3 27/32. Shells gave way 1/32 to 4½, and Bearer Shares being down to a like extent at 4 15/32. Anglo-Americans and Anglo-Persians lost 1/32 at 3 15/32 and 5 5/16 respectively, but Burmahs remained quietly steady at 5⅝. Mexican Eagles hardened to 19s. 6d., and the 8 p.c. Participating Prefs. to 18s. 3d., while the 7 p.c. Prefs. were steady at 17s. 1½d.

TOBACCOS THE FEATURE OF INDUSTRIALS.

Irregular movements were again witnessed in the Industrial market yesterday, but the tone, on the whole, was rather better, dealers taking a more hopeful view of the coal situation. Despite this fact, however, little disposition was shown to support prices in the Coal, Steel and Engineering groups after past disappointments. Armstrongs at 5s. 3d., Dorman-Longs at 10s., and Stewarts Def. at 29s. 3d. were all a few pence easier. Textiles remained on the dull side. Spinners fell 6d. to 44s., and declines of 3d. each were recorded by Bleachers at 44s. 6d., Calico Printers at 27s. 3d., and Linen Threads at 32s. 3d. Amalgamated Cottons again lost the turn at 5s. 6d. A little support was given to Bradford Dyers, which hardened 3d. to 50s. Of the Artsilks, Courtaulds were quiet around 5 7/16, with Wardle and Davenport 1/32 easier at 3 1/32. Cellulose Holdings changed hands up to 29s. 3d. on the new capital proposals. There was not a great deal doing among Electrical Equipments, and, in the absence of further buyers, prices eased somewhat. British Insulated at 70s. 9d., General Electrics at 30s. 9d., and Johnson and Phillips at 66s. 3d. were each marked down a few pence. Brazilian Common lost a fraction at 120, but Barcelona Common held at 39. Mexican Light and Power Common, on the other hand, jumped 2 to 33½. Buying on Paris account was reported for Lautaros Nitrates, which put the price up 1/16 to 3 11/16. Other Nitrate issues were quietly steady. LONDON MINING MARKET FAIRLY BRISK.

INTEREST IN ANGLO-AMERICAN CORPORATIONS.

There was still a fair amount of business in progress in the Mining market yesterday. Quite a feature was provided by Anglo-American Corporation on rumours of a bonus issue. No official information was forthcoming during business hours, but we understand the proposal is to offer Rand Selection shares at 16s. 3d. to holders of Anglos in proportion of one of the former for every four of the latter. The Anglo-American holds about 90 per cent. of the Rand Selection capital, and, although the shares to be offered will be ex the 1s. 3d. dividend recently declared, the offer still constitutes a bonus on Anglos. Rand Selection shareholders will be able to apply for one share for every two held on the same terms, and in this case also the bonus is substantial, and, no doubt, accounts for the revival of interest in Rand Selections, which jumped up sharply. It will be realised that these particular shares will in future probably enjoy a much wider market. C.M.S. were sympathetically affected, the company having a large holding in Anglos. Central Mining were again freely bought, and several of the Far Easterns received increased support, while Durban Deep, Knights, and other low-priced descriptions were inquired for from the Cape. The tone at the close was quite firm. In the Diamond section De Beers issues claimed the bulk of attention and went ahead rapidly. Everywhere there are signs of increasing interest in the Tin share market, as the statistical position of the metal and the general outlook are becoming more widely recognised. Yesterday the price opened £1 per ton higher, but the final quotation of £313 15s. shows a drop of £2 17s. 6d. on the day. In view of the previous sustained advance, this set-back is quite insignificant, but advantage was taken of it to mark down share values. Rio Tinto, in the Copper section, experienced a sharp set-back, and one or two Canadians were marked down. Huronian Belt and Pioneer, however, held up well. Elsewhere Burma Corporation were in good request, and Santa Gertrudis marked a sharp advance, while San Francisco was a firm spot. Closing prices:—

COMPANY MEETING.

NOBEL INDUSTRIES, LIMITED.

GENERAL MOTORS REMARKABLE RESULTS.

The seventh annual general meeting of Nobel Industries, Ltd., was held yesterday at Winchester House, London, E.C. Sir Harry McGowan, K.B.E. (Chairman and Managing Director), presided.

The Chairman, in moving the adoption of the report and accounts, said that the year 1925 in its opening months had been one of considerable promise, but the hopes so widely entertained at the commencement of the year of substantial improvement in the general trade situation were not realised. The serious reduction in the output of coal in the United Kingdom which took place in 1925, amounting to some 26 million tons, or nearly 10 per cent. of the 1924 production, materially affected the company's home trade in explosives and accessories. Satisfactory progress had been maintained by their Birmingham businesses, and their military ammunition continued to give satisfaction. At Bisley in July last Mr. Ashdown, a member of the staff, created a world's record for the Elcho Shield with match rifle ammunition made by Kynoch, Ltd. Their general export business had shown satisfactory progress, and the investments in associated businesses established on the Continent had yielded satisfactory returns. The three great Dominion enterprises—Canadian Explosives, Ltd., African Explosives and Industries, Ltd., and Nobel (Australasia), Ltd.—were growing steadily and were of a profitable character. The South American Explosives Company, whose factory was situated in Chile, continued to progress satisfactorily.

During the past year they extended the company's interests in the manufacture of artificial leather by the acquisition of a very substantial holding in the British Leather Cloth Manufacturing Company, which made the well-known Rexine leather cloth. In the paint, varnish, lacquer, etc., trade they were developing the production of the well-known Du Pont Viscolac hard enamel for motor car bodies and other articles under the name of "Belco." The product was giving great satisfaction to the motor trade, and the demand for it was increasing rapidly, not only in this country, but in other Empire markets.

In connection with the fusion of interests in the motor accessories trade between Messrs. Joseph Lucas, Ltd., C. A. Vandervell and Co., and Rotax Motor Accessories, Ltd., in the last-named of which the company had a substantial shareholding, they exchanged the Ordinary Shares in Rotax Motor Accessories, Ltd., for shares in Joseph Lucas, Ltd., and would share in the advantages which would undoubtedly accrue from that combination of interests. As to the investments, the progress achieved in 1925 by the General Motors Corporation, in which they had a substantial interest, were phenomenal, and this year's earnings would undoubtedly surpass the remarkable figures of 1925. Despite some advantageous realisations, the company still retained a very substantial holding in General Motors.

In the Dunlop Rubber Company they had realised a further part of their holding at a satisfactory profit, but were still substantially interested in the fortunes of the company, which was making good progress. They had disposed of Preference shares held in British Celanese.

As to the prospects for 1926 they had had the serious dislocation caused by the general strike, and the slowly paralysing effects of a twenty weeks' stoppage of the coal mines. When the directors in the early days of June decided to recommend dividends for the year 1925 of 10 p.c. on the Ordinary shares and 5 p.c. on the Deferred shares, they were moved by the considerations that the results of that year justified those dividends; that the Deferred shareholders had received no dividend since that for the year 1919, and by an estimate of the period of the coal stoppage, which events had since proved to have been too optimistic. Meanwhile the prolonged stoppage had entailed closing down either wholly or in part several explosives' factories and had also affected the company's activities in other interests. As a result they could not expect that the outcome of the actual trading for the current year would be as favourable as last year. On the other hand, they looked for a further improvement in the income to be received from their general industrial investments. They would not expect any forecast of the outcome. All he could say was that the Board would not lightly abandon the level of dividends paid this year.

The report and accounts were adopted.

THE DUBLIN SHIPPING DEAL.

SOUTH WALES INTERESTED.

South Wales is directly interested in the Dublin shipping deal, as Michael Murphy, Ltd., hold a controlling interest in M. J. Begg and Co., Ltd., Cardiff, agents for Dublin, Liverpool and Cardiff steamers, which trade regularly to Wales.

Mr. John Tierney, who has been managing director for Messrs. Begg for thirty-five years, has just retired. He went to Liverpool from Ireland many years ago, and was sent to Cardiff by the late Sir Michael Murphy to build up the Welsh-Irish trade.

No successor to Mr. Tierney has been appointed.

IRISH TOURIST TRAFFIC.

AN ALL-THE-YEAR SEASON.

Mr. J. P. O'Brien, Secretary of the Irish Tourist Association, who spoke at a meeting of the West of Ireland Tourist Association in Galway, said that they were not going to be content with a summer tourist season in Ireland. Their aim was to have an all-year-round season. In this country there were the finest hunting and shooting facilities in the world, and they were going to make use of them.

A committee was formed to deal with matters affecting tourist development locally. Mr. Martin McDonogh, Vice-Chairman of the Irish Tourist Association, and Chairman of the Galway Urban Council, presided at the meeting.

AUTUMN HERRING FISHING

CURING PREPARATIONS AT KINSALE.

The autumn herring fishing season is about to open at Kinsale, where already some of the fish-curing firms from Howth and from Scotland have taken up positions on the pier, where they expect to be kept busily occupied for some time to come.

During the summer season, which lasted eight and nine weeks, 700 tons of cured herrings were shipped direct from Kinsale to Hamburg, so that a very successful beginning was made in the herring curing industry at Kinsale.

CONNEMARA FRUIT.

ORCHARD IN A WILDERNESS

PROMISING INDUSTRY.

(From Our Agricultural Correspondent.)

On the long-winding road between Recess and Carna, in the heart of Connemara, there stands a signpost indicating the presence of a fruit farm, and asking passers-by to "Help the West to help itself." The immediate outlook is not promising. Moory land, with a plentiful crop of stones, broken occasionally by patches of cultivated ground, meets the eye everywhere. It does not appear to offer much scope for fruit growing, but on going up the avenue from the roadside, the visitor receives an agreeable surprise. On portion of what was formerly the property of the Congested Districts Board at Knockboy, two miles from Carna, Mr. C. Betts, with his wife and son, is carrying on a fruit-growing industry with considerable success. In an area of four to five acres which had to be reclaimed, Mr. Betts has planted 900 apple trees since he took it over from the Congested Districts Board in 1918. The varieties grown include Bramley's Seedling, Early Victoria, Grenadier, Lord Derby, Worcester Permain, Allington Pippin, James Grieve and Newton Wonder, all of which have done exceedingly well, as the result of proper pruning and careful treatment. Personal attention to every detail in the management of the crop has resulted in the production of clean, sound, good-coloured fruit, for which a ready market is found in Connemara. Some excellent specimens of the fruit grown here were exhibited at Carna Show, and in such a year as the present the display came rather as a surprise.

JAMS AND HONEY.

In view of the scarcity of fruit in Connemara, Mr. Betts believes that it pays him better to sell locally than to send his produce to Dublin or elsewhere. In addition to selling fruit, Mr. Betts does a considerable trade in jam-making. In 1924 he disposed of 2,000lbs. of jam; last year the sales amounted to 5,000, while this year orders have been received for 10,000lbs. of jam. The success attained here shows what can be done, even under adverse conditions in Connemara. All the jams are made on oil stoves, and nothing is added to the fruit except pure sugar. Seven hives of bees are kept, and from these it is hoped to obtain from 500lb. to 600lb. of drawn honey this season. Glass jam jars are used, and owing to the import duty, and to the fact that they are not made in Ireland, these jars prove expensive. In addition to jams, about 6,000lb. of marmalade will be made this year.

The total acreage held by Mr. Betts is 425 acres, but most of it is unworkable. It carries numerous stunted trees planted many years ago by the Congested Districts Board, under a scheme for afforestation which proved a failure. Mr. Betts's orchard is well sheltered, and should give hope to those who believe that good fruit cannot be grown in the West.

CAUGHT WITH GAFF.

LICENSED ANGLER FINED AT LUCAN.

Previously convicted once James Kearney, Main street, Leixlip, was fined £5 and £5 costs at Lucan District Court yesterday for catching a salmon with a gaff.

Mr. E. H. Burne, solicitor, who appeared for the Conservators, said that Guards who were on river duty on the 12th June last saw Kearney, who had a licence to fish, angling with a rod. He, however, laid aside the rod and caught a salmon, weighing 22lbs., with a gaff.

Mr. Burne complimented Sergeant McElligott and Guard Farrell for their vigilance in the case.

DAIRY SHORTHORN CATTLE.

CORK SHOW AND SALE.

The fourth annual show and sale of the Irish Dairy Shorthorn Breeders' Society will be held in Cork on Wednesday next, 22nd instant. The society, which is really an association of the several cow-testing associations in *An Saorstat*, was established for the purpose of inducing farmers to grade up their cattle to yield more and better milk and, at the same time, to produce better store cattle, and those aims have appealed to many, and have had a most stimulating effect on progressive dairy farmers, particularly in Munster.

The result is that in numerous instances the milk yields of herds have been raised by as much as 250 gallons per cow, owing to the introduction of suitable dairy bulls, breeding from the best cows and retaining the heifers, as well as bestowing proper care on the feeding and general management of the herds. Farmers who have thus progressed have now some nice surplus graded-up young stock, and about seventy-five of them will be offered for sale at the forthcoming fixture in Cork. The animals for sale include pure-bred cows, two-year-olds, yearlings, calves (heifers and bulls), as well as non-pedigree registered cows, two-year-olds, yearlings and calves, and a few aged pure-bred dairy bulls which have won several prizes at agricultural shows.

The Great Southern Railways have consented to issue return tickets at single fares to Cork from 21st to 23rd instant (express mail excepted) from all stations in Munster, and, with such facilities and an attractive number of high-class, reliable dairy animals for sale, the fixture should be an outstanding success this year.

The judges will be Messrs. Cochrane Walsh, Monaghan, and James Bellew, Drogheda, and judging will begin at 9.30 a.m. The auction will start at 12 noon.

FIREWOOD FOR STEAM THRESHING.

CAUSE OF KILKENNY FIRE.

While threshing operations were in progress in Mr. John Doolan's haggard at Curragh, Dungarvan, County Kilkenny, a piece of burning wood flew from the engine and set fire to a large rick of oats. All efforts to prevent the fire from spreading to a newly-erected barn, containing over 50 tons of hay, failed, and in a short time the rick of oats, the hay barn, and its contents were reduced to ashes. The damage is estimated at £500.

Owing to the scarcity of coal it has been found necessary to use firewood for steam threshing purposes, and this is a source of much danger owing to continual flying sparks.

UBLIN CIRCUIT COURT

ALLEGED FRAUD ON KODAK, LTD.

FRESH CHARGES AGAINST CASHIER.

(BEFORE MR. COLLINS.)

W. W. Finn, manager of the Dublin branch of Messrs. Kodak, Ltd., and W. J. Burns, cashier, appeared on remand in connection with the fraud alleged to have been carried on in the company's Grafton street office.

The evidence was confined to additional charges against Burns.

Mr. T. Clarke, of the Chief State Solicitor's Department, who prosecuted, said that since the case was last before the Court six additional charges had been entered against Burns, five of which had reference to a series of frauds of which the victims were not Messrs. Kodak, but their employés.

Messrs. Kodak employed upwards of fifty hands in their Dublin branch. These employés were awarded a bonus every year by the company, calculated on their earnings over a certain period and according to length of service. The aggregate amount of the bonus was sent in one cheque to the cashier, Burns, whose duty it was to pay each employé the amount that the employé was entitled to, get receipts and forward them to London.

"What Burns appeared to have done," said Mr. Clarke, "was something like this: When he got the cheque from London he filled out a receipt for a lesser amount, got it signed by the employé, and, having got the employé's signature, altered the receipt to make it tally with the amount he should have paid."

EMPLOYES' DIVIDENDS.

In addition to this wage bonus, continued Mr. Clarke, a number of employés held shares in the company, for which they received half-yearly dividends. A cheque covering the entire amount of the dividends was sent to the cashier. Burns was expected to pay the dividends and get receipts, but he appeared to have dealt with these receipts in a way similar to that in which he dealt with the wage bonus receipts.

The last charge had reference to a sum of £96, representing insurance contributions which Burns should have paid. A cheque was forwarded each week to cover wages and petty cash. It was the duty of the cashier to pay the employers' insurance contributions out of the petty cash, and also to deduct from the employés their contributions. The deficiency of about £96 would have to be made good by Messrs. Kodak to the Insurance Commissioners.

Mr. Harwood, district auditor of Messrs. Kodak, Ltd., explained the system of payment as stated to the Court by Mr. Clarke, and produced a cheque for £609 19s. 10d. issued by the company for bonuses payable last July. He also produced a voucher, signed by Burns and Finn, for the amount of the cheque, with the statement: "Paid as per receipts," and a list furnished with the cheque showing the amount payable to each employé. He identified eight specimen receipts from employés.

Mr. Collins, having examined the specimens, said that it was clear that they had been altered.

FALSE RECEIPTS.

Four girls in the employment of Messrs. Kodak in Dublin were called, and stated that they did not receive any money in respect of the January dividends. The names on the receipts for these dividends, now produced for their inspection, were not their signatures.

Mr. Collins asked one of the girls did she make any inquiries when she failed to get her dividend in January.

The Witness replied that she did not.

Mr. Clarke—Apparently they had so much confidence in the cashier that they took what was given to them.

Evidence was given by a girl that in July she was paid £7 3s. 2d. by the defendant Burns. The amount was paid as bonus, and she had not received the additional £1 which the receipt now produced showed.

Patrick Byrne said that in July he received £13 1s. 2d. The receipt now produced was for £13 9s. 2d.

Daniel Lynch said that in July he was paid £21 1s. 1d. by Mr. Burns. The receipt represented him as having received £21 6s. 11d.

Inspector O'Connell said that he was present in the Bridewell that morning when the additional charges were read to Burns, who was cautioned. Burns made no reply.

Mr. Clarke said that that was all the evidence he proposed to offer that day, and he asked for a remand for a week.

BAIL REFUSED.

Mr. Taylor, solicitor, who appeared for Finn, applied for bail on his behalf. He said that he intended to plead guilty in respect of the £13 and the £40 charges. As regards the other charge, his client had not handled the money at all. Restitution would be made and the mercy of the Court asked for.

Mr. Collins—If you are going to plead guilty there is no use asking for bail.

Mr. Taylor—I am not pleading guilty: I am telling you what our intention is.

Mr. Collins refused bail.

Both men were remanded until next Friday.

Mr. Bradley, solicitor, appeared for Burns.

STEALING GAS.

SENTENCE OF THREE MONTHS' IMPRISONMENT.

Stephen Condron, aged about 70 years, a cabinet maker, of Pembroke lane, was charged with having, between May last and the 16th of this month, stolen gas, the property of the Alliance and Dublin Consumers' Gas Company, by tapping the gas main and inserting a plug, connecting the main with his gas stove and diverting the flow of gas from the meter.

Patrick Halpin, collector, employed by the Gas Company, examined by Mr. E. H. Burne, solicitor, who prosecuted, said that he took a reading of the meter in the defendant's house on the 13th May and collected 3s. 6d. from the slot. On the 11th inst. he returned to the premises and saw two men sitting in the kitchen. He went across the yard, and as he was going he heard tapping. He then went to the meter, read it, and collected the contents. The defendant appeared to be uneasy and got between the meter and the gas cooker. He appeared to be trying to light the stove, and handed the witness a penny to put in the meter, complaining that the pressure was bad. There was a sum of 1s. 10d. in the meter.

John Waldron, chief superintendent of the Gas Company, gave evidence of having visited the defendant's premises on Thursday morning, accompanied by another official of the company. This official concealed himself while witness knocked. The defendant peeped out and asked, "What do you want?" The witness replied that he wanted some furniture repaired. Condron then opened the door, and the witness and the other official entered. The defendant tried to stop them. The witness found a connection made to the main cock, and saw that gas was being abstracted and used without passing through the meter and was burning in a gas ring. He estimated the loss to the company at the rate of 2s. a day. The apparatus used was, he said, a most ingenious device.

Detective Fennell stated that the accused man, when charged and cautioned, said: "I don't fancy that that charge could be right. How can they charge me with stealing the gas from May until now when I was only caught this morning?"

The accused man admitted his guilt. He said that that was the first time he had ever been in a police court. It was through sheer want that he did it.

Mr. Collins sentenced him to three months' imprisonment.

INJURED BY TRAMCAR.

INFORMATIONS REFUSED AGAINST DRIVER.

William McDonnell, a motor man in the employment of the Dublin United Tramways Company, appeared on remand, charged with having negligently driven a tramcar at Strand road, Dollymount, on the 7th inst., and caused serious personal injuries to George Caldwell, a schoolboy, aged 14 years, of 20 Brian Boru avenue, which necessitated the amputation of the right foot and hand.

It was alleged that the boy was knocked down by a tramcar driven by the accused man. The boy's left thigh, it was stated, was fractured, and he had sustained injuries to his head and body. He was still under treatment in hospital.

Several witnesses were examined, but none had seen the boy being knocked down.

A statement already made by the accused man was to the effect that when passing Fairview avenue at six miles an hour he met a car going towards Dollymount. As the cars passed, a boy ran from behind the car that was going towards Dollymount and was struck by the right front of his car. The boy fell and was caught on the fender. He pulled up, got off the car, and, with others, took the boy from the fender and telephoned for the ambulance.

Mr. Collins said that he did not think that any jury would convict on the evidence, and he refused informations.

HOUSEBREAKING CHARGE.

Edward Merry (32), plumber, of Iveagh Lodging House, and Lawrence Smith (39), labourer, of Whitefriar street, were remanded on a charge of breaking into the premises, 8 Woodstock Gardens, on the night of the 13th inst. and stealing property worth £16.

It was stated in evidence that the accused men admitted the charge.

ALLEGED LARCENY OF WATCH.

Charged with stealing from a bedroom in the house, 28 Drumcondra road, a lady's gold watch, value £5, the property of his employer, Mrs. Theresa Lawler, Joseph Williams, a boy of 18 years, of Williams' place, Drumcondra, was remanded until next Thursday.

Detective Liam Coogan stated that the accused boy admitted stealing the watch, and told him that he threw it into the canal.

PRODUCE AND FOOD MARKETS.

CATTLE.

BIRKENHEAD.—The restrictions of the Board of Agriculture remaining in force, and with the absence of country buyers, trade for cattle was practically at a standstill, very few sales being effected. Trade ruled very quiet for the supply of lambs on offer, and prices ranged from 11d. to 1/- per lb., sinking the offal, and for a few lots of exceptional quality 1/1 was obtained. Supplies—1,669 Irish, 729 Canadian cattle and 2,300 lambs.

GRAIN.

DUBLIN CORN.—Attendances of the trade at our bi-weekly Corn Exchange gathering continue limited; in fact, this market appears to be unattractive and of little interest of late. Irish wheat is nominally quoted around 30/- to 31/- per barrel for best qualities; white oats from 13/- to 14/6, with some inferior samples down to 12/- and 12/6 per barrel; good feeding blacks quoted at 11/- to 12/- per barrel.

DUBLIN POTATO.—Demand for tubers remains only fair at 4/- to 4/6 cwt. for best classes. Arrivals far exceed possible business.

DUBLIN POULTRY AND GAME.—All classes of poultry were in good arrival here to-day, but business was somewhat curtailed owing to the extremely close weather, choice well-finished birds only selling quickly. Small or store quality chickens, ducks and turkeys show a reduction all round. Game and wildfowl coming to hand in soft condition, and prices irregular to clear. Rabbits in plentiful supply, but the three fast days this week, as well as the hot weather, have brought about a sharp reduction in prices from last week. Chickens 11d. to 1/- and 1/2 per lb., smalls 1/6 each, large fat hens 2/- to 2/6 each, others 1/3 to 1/6 each; a little more money was realised for some extra quality hens. DUBLIN BUTTER AND EGG.—The market for creamery produce has a firmer tone, and shows a slight advance in prices. Some shipments to Germany of Irish creams have helped to clear surplus stocks, but British markets are still reported slow. Finest creams to-day 1/4½ per lb., fair quality 1/4 to 1/4½ per lb., 28lb. pyramids 1/4½ per lb. Both farmers' and factory butter dull and slow; best factory 1/1 to 1/1½ per lb., good grades of farmers' butter 1/- to 1/2, coarse descriptions very hard to cash at low rates, which are scarcely quotable. Strictly fresh, reliable hen eggs meet a steady city trade, but supplies are not heavy. Stale or doubtful quality eggs or badly packed stuff is not wanted here—recently some consignments have had to be refused on account of carelessness. Extra selected heavily picked retail lots of hen eggs 17/- to 17/6 per 120, case lots ordinary and selected 14/9 to 16/3 per 120; smalls and mediums 12/9 to 14/3. Duck eggs are scarce; selected and repacked lots make 15/- to 15/6 per 120.

CORK BUTTER.—The market remains steady and featureless. Creameries 143/- to 147/- per cwt., choicest mild 145/-.

IRISH BUTTER QUOTATION.—The Irish Dairy (Producers and Shippers) Association have fixed for the week ending Thursday next, 23rd September, 1926, 153/- per cwt. for choicest salted butter, in boxes, wholesale, net, free on rail Ireland; special dairies extra.

DUBLIN FISH.—Fish was in small compass here this morning, and a fair demand resulted in a satisfactory clearance at 12/- to 17/6 for large lobsters, 7/6 to 10/- for seconds, and 5/- to 7/6 for small per lot of 13; large soles 35/- to 40/-, mediums 20/- to 25/-, and slips 5/- to 10/- per 9 pairs; turbot 6d. to 10/- each, brill 6d. to 5/- each, plaice 15/- to 60/- per half-box, ray 10/- to 15/- per half-box, herrings 10/- to 20/- per box, mackerel 6/- to 8/- per box. Supplies principally comprised 20 chests lobsters, 100 boxes herrings, 40 boxes mackerel.

BILLINGSGATE FISH.—Fair supplies; good demand. MESSRS. GAVIN LOW'S SHEEP SALE.

Messrs. Gavin Low, Ltd., held a most successful sale of breeding sheep in Dublin Cattle Market yesterday, when close on 4,000 were penned. There was a large and representative attendance of buyers, and a brisk trade was experienced for all classes, especially Cheviot and B.F. Horny ewes. With the exception of a few pens of inferior Galway ewes, an excellent clearance was made. The following prices will show the general trend of values:—Best Galway ewes made from 63/6 to 55/-; secondary, from 54/- to 48/-; cross-breds, from 63/- to 49/-; Cheviots, from 65/- to 49/-; best B.F. Hornys, 43/- to 34/-; secondary, 33/- to 25/-.

LONDON WOOL SALES.

At public sales two catalogues were submitted jointly, totalling 11,465 bales, comprising 2,865 New South Wales and Queensland, 1,746 Victorian, 102 West Australian, 90 South Australian, 6,481 New Zealand, 155 Cape, 105 Buenos Aires. Competition was well sustained, chiefly from Continental operators for both merinos and cross-breds, but Yorkshire houses displayed moderate interest in suitable cross-breds and slipes, while American buyers also purchased moderate quantities of the latter. A firm tone governed the market, and, compared with the close of last series, Australian scoured merinos marked an advance of 5 per cent. to 7½ per cent., greasy ditto 7½ per cent., New Zealand scoured cross-breds 7½ per cent. to 10 per cent., greasy ditto fine 5 per cent. to 7½ per cent., medium 10 per cent., coarse 7½ per cent. to 10 per cent., slipes 7½ per cent. to 10 per cent. Capes par to 5 per cent. and Punta Arenas 5 per cent. to 10 per cent. dearer.
